

## Scientific Method Project Report

Your report should be 1 – 2 pages in length. It should be typed or neatly written. If you are working with a partner you should turn in one report with both of your names. Your report will need to include the following information:

State your **Problem/Question**

Tell me your **Hypothesis**. What did you think was going to happen before you did your experiment?

Explain in detail the **Experimental Set-up**. What exactly did you do for your experiment? What equipment did you use? How long did it take you?

Record the **Data**. Include a chart or a graph of the information you collected while doing the experiment.

Tell me your **Conclusions**. After doing the experiment, what were the results? Was your hypothesis correct or incorrect?
