ELCO High School Students and Parents/Guardians,

Each new school year brings new opportunities for student growth and success. The opportunities afforded by the High School's course offerings and master schedule provide students with the structure necessary to support their success in core academics while providing the flexibility to explore their interests across a wide range of subject areas. ELCO High School provides students with many educational opportunities, enabling students to study in the areas of agriculture, art, business and technology, family and consumer science, music, technology education, wellness, and world languages in addition to the core academic areas of English, Mathematics, Science, and Social Studies. Further, the graduation requirements allow students the flexibility to design a course of study tailored to their individual interests and goals.

One of the most important decisions high school students encounter is the selection of courses for the following school year. The courses students select guide their futures and should be based on careful consideration of students’ goals, skills, interests, and abilities as well as their intended career area. Course selections should reflect students’ post-secondary goals and be grounded in the career cluster that matches their future plans.

Students, as you embark on the course selection process, use the available resources and consult with your parents, teachers, and school counselor. Carefully consider your academic record in determining the appropriate placement in courses but also be willing to challenge yourself. High school provides the opportunity not only to prepare for your future but also to explore and develop your individual interests and abilities. Take advantage of the opportunities available to you.

This *Educational Planning Guide* contains the answers to most of the questions that may arise concerning the process of selecting courses and developing your schedule for the upcoming school year. Read all of the information carefully. The *Educational Planning Guide* outlines course requirements and provides an overview of each course and the opportunities that are available to you, including program offerings at the Lebanon County Career and Technology Center. The *Educational Planning Guide* also highlights five Career Pathways, which are intended to help guide you through your course selections as they relate to your career goals. Explore the Career Pathways and plan your course selections based on your future aspirations.

If you have questions at any point in the process, contact the school counselors or administrators and we will be happy to help you.

Sincerely,

Jennifer Haas, High School Principal
Mission Statement

ELCO Together: One community, one school district, creating learning opportunities for each student, every day.

Directory

Ms. Jennifer S. Haas  High School Principal
Mr. Craig A. Soden  High School Assistant Principal
Mr. J. Thomas Eberly  High School Counselor (Grades 10 -12; Last Names H – Z)
Ms. Lisa Fulton  High School Counselor (Grade 9 Students)
Mr. John Mentzer  High School Counselor (Grades 10 – 12; Last Names A – G; CTC students; ELCO Virtual Academy students)

Acknowledgements

The instructional program described in this Educational Planning Guide is the result of the collaboration and professional expertise of the ELCO High School faculty and department chairpersons. The list of names below is to recognize and acknowledge those individuals who directly contributed to the development of the Educational Planning Guide.

J. Thomas Eberly - School Counselor
Lisa Fulton - School Counselor
John Mentzer - School Counselor
Amy Shoemaker – Director of Pupil Services
Lynn Aponick - Science Department Chairperson
David Fair - Music Department Chairperson
Todd Gaffney - Physical Education Department Chairperson
Martha Good - Social Studies Department Chairperson
Wendy Kerst – Library Sciences Department Chairperson
Jennifer Martin - World Language Department Chairperson
Kenneth Miller – Agriculture Science & Technology Ed. Dept. Chairperson
Taryn Showalter - Art Department Chairperson
Michael Simmons - Math Department Chairperson
Amanda Templeton - English Department Chairperson
Amy Weddle - Business/Computer Department Chairperson
Elizabeth Yearwood – Family & Consumer Science Department Chairperson

*Students are responsible for the appropriate selection of courses in order to fulfill graduation requirements and to prepare for their post-secondary goals.*

**Keystone Exams**

The Keystone Exams are end-of-course assessments designed to measure students’ proficiency in Algebra I, Biology, and Literature. These exams are one component of Pennsylvania’s system of high school graduation requirements, which are outlined in Chapter 4 regulations. Recent legislation has established provisions for multiple alternatives to graduation beyond proficiency on each of the three Keystone Exams, starting with the Class of 2022. Additionally, all students are required to complete each of the Keystone Exams in order to meet federal accountability requirements.

Students who do not demonstrate proficiency on a Keystone Exam are provided with remediation prior to retaking the respective Keystone Exam by being enrolled in a Keystone Prep course in the respective subject area, which occurs during a student’s flex period. This supplemental instruction aligns with the eligible content assessed through each Keystone Exam (Algebra I, Biology, and Literature).
Promotion Requirements

Students attending ELCO High School are required to register for a minimum of six (6) credits per year. Sequential courses in English, Social Studies, Math, and Science must be passed in their respective order.

The required number of credits must be earned prior to the start of each school year in order for students to be listed in the respective grade level. All required credits needed for graduation must be earned prior to the date of graduation in order to participate in commencement exercises.

In order to be promoted to the respective grade level, students must successfully earn the number of credits as indicated below:

<table>
<thead>
<tr>
<th>Grade Level</th>

<td>SENIOR (12th)</td>
<td>16</td>
</tr>
</tbody>
</table>

Only approved summer school programs may be used to meet promotion or graduation requirements when failures occur.

Transfer Students

Students who move into the District and find themselves below the required credits for the expected grade level will be given due consideration for grade placement based upon the successful completion of courses in the areas of English, Social Studies, Science, Math, Physical Education and Health in their previous school.

Summer School

Students are strongly encouraged to pass the courses in which they are enrolled during the school year. However, students who do not successfully earn a passing grade in a course(s) during the school year may be granted the opportunity to complete remedial courses during the summer in order to recoup the necessary credit, if a matching course is available through an approved summer school provider. The offering of summer school courses is contingent upon course availability and sufficient student enrollment. The District cannot guarantee that all courses failed during the school year will be offered through a summer school program. Credits may be remediated during the summer in order to be promoted to the next grade level. A fee will be charged for all summer school courses and will be incurred by the student.
Course Levels

The Advanced Placement (AP) program offers students the opportunity to pursue college-level studies while still in high school. Students experience a rigorous curriculum and have the opportunity to earn college credit or advanced standing in post-secondary coursework by taking the respective AP Exam(s) through the College Board and earning specific scores as established by individual post-secondary institutions. The AP Exams are paid for by the student and are administered on national test dates in May. While students are not required to take the respective AP Exams, students are strongly encouraged to complete the AP Exams as a way to earn college credit and to gauge knowledge acquired through AP coursework.

AP courses require a considerable amount of time outside of school engaging in course-related activities, which may include summer assignments and additional class meetings outside the regular school day. By registering for an AP course, students agree to complete the additional work in the time frame established by the respective AP teacher. If there is a concern regarding the course work, the student is expected to contact the teacher prior to the deadline for the submission of assignments. Failure to complete the summer assignments will not release the student from the obligation to remain in the class, and the missing work may be counted as zeros by the teacher and averaged into the student’s grade for the course.

Students are strongly encouraged to take honors level courses in order to prepare for Advanced Placement courses and to carefully review the course descriptions and prerequisites as outlined in the Educational Planning Guide.

Honors courses in any subject area are meant to meet the needs of the academically-talented student and will require independent work in greater depth in each subject area.

College Prep courses will prepare any student for a comprehensive two or four-year post-secondary program.

Applied courses are geared to the student who plans to attend a community college, a trade or technical school, or enter employment or the military immediately after high school.

Course Placements

Course level placements are determined with consideration of multiple sources of data, including teacher recommendations, prerequisite course grades, PSSA and Keystone Exam performance, and PVAAS student projections. While the Educational Planning Guide lists prerequisites for specific courses, all of these components may be considered when determining appropriate course placements for students.

As students progress through their high school program, course levels may change from year to year. Teacher recommendations should be carefully considered in determining the
appropriate placement of students in classes. When current High School students complete
the online course selection process, they may see teacher recommendations for specific
courses. Parents should be aware of teacher recommendations prior to signing the
student’s final course requests.

Additionally, students must obtain the specific recommendation of teachers in order to
request certain courses, including AP, College in the High School, Dual Enrollment, and
Independent Study courses. Teacher recommendation forms for these courses must be
obtained by the student in the High School Counseling Office. The student is responsible
for completing the form prior to the student’s individual meeting with his/her counselor.

All prerequisites as listed in the Educational Planning Guide must be fulfilled in order to
enroll in a course. If a student does not meet the prerequisite for a course he/she wishes
to take, a “waiver of prerequisites” must be signed by the student and parent/guardian.

**AP Capstone Diploma Program**

The ELCO School District is approved by the College Board to offer the prestigious AP
Capstone Diploma Program. The program is based on two year-long AP courses: AP
Seminar and AP Research. These two AP courses differ from other AP courses in that they
are not subject-specific but rather endeavor to develop students’ skills in research,
analysis, developing evidence-based arguments, collaborating, writing, and presenting.
Students who complete the two-year sequence of AP Seminar and AP Research are eligible
to earn one of two AP Capstone awards.

- Students earn the “AP Capstone Diploma” by earning scores of 3 or higher on both
  the AP Seminar and AP Research exams as well as on four additional AP Exams of
  their choosing.

- Students earn the “AP Seminar and Research Certificate” by earning scores of 3 or
  higher on both the AP Semester and AP Research exams but NOT on four additional
  AP Exams.

**“College in the High School”**

The ELCO School District offers students with various opportunities to earn college credit
while in high school. One way in which students may earn college credit is through the
successful completion of courses that are designated as “College in the High School” (CIHS)
courses. Through agreements with post-secondary institutions, including Harrisburg Area
Community College and Harrisburg University, students may concurrently earn both high
school and college credit by successfully completing certain CIHS designated courses on the
ELCO campus that are instructed by ELCO teachers.
In order to earn credit through the designated post-secondary institution, students must complete the documents required by the respective post-secondary institution and fulfill the requirements of the registration process. Students may also be required to pass a placement exam for certain courses. If students elect to earn the college credits through a CIHS course, they are responsible for the costs associated with the CIHS course, which are offered to students at a substantially reduced rate. Current information regarding costs and other eligibility requirements is available through the Counseling Office. Courses for this program may change from year to year, so contact with the student's school counselor is essential.

**Dual Enrollment**

The ELCO School District has established dual enrollment agreements with several local colleges and universities. Through these dual enrollment agreements, juniors and seniors who meet the specified eligibility requirements may concurrently enroll in post-secondary courses and upon successful completion of the course(s), credit will be awarded by both the post-secondary institution and ELCO High School. Currently, ELCO has dual enrollment agreements established with HACC (Lebanon campus), Lebanon Valley College, and Penn State (Berks campus).

Students who complete a dual enrollment course will have the course listed on their ELCO High School transcript under the heading of “Dual Enrollment.” For ELCO High School purposes, each course (Level 100 or higher) will carry Level IV course weight. The grades earned in dual enrollment courses will be factored in to a student’s weighted grade average and associated class rank. Students are responsible for providing an official transcript from the post-secondary institution to his/her school counselor at the conclusion of each semester indicating the final percentage grade earned in the course.

Additional information, including specific eligibility requirements established by each institution, is available through the High School Counseling Office. General guidelines that apply to the dual enrollment program include:

- Students must meet all eligibility and admissions requirements as outlined by the respective post-secondary institution.
- Students must be making satisfactory progress toward fulfilling graduation requirements as determined by the District.
- Students may only take courses that are not offered as part of the current curriculum offerings at ELCO High School.
- A student is not permitted to substitute a dual enrollment course for a required high school course unless approved by the building principal after consultation with the appropriate department chair. Credit earned through dual enrollment courses will count towards “elective” credit in terms of graduation requirements, unless otherwise approved by the building principal.
• Students and parents are responsible for all tuition costs and other fees associated with a dual enrollment course.

• Students and parents are responsible for transportation to and from the post-secondary institution. A signed transportation agreement will be required.

• Courses taken through a dual enrollment program may not be remedial courses and must be at the 100-level and worth at least 3 college credits.

• Courses completed outside of the regular school year (i.e., summer courses) will not be approved for dual enrollment credit.

• The student is responsible for meeting the attendance and other requirements as outlined by the instructor and the post-secondary institution.

• Dropping a dual enrollment course after the established drop/add periods may result in the student not meeting the District’s graduation requirements. The same drop/add policy followed in the High School applies to dual enrollment courses as well, in addition to the policies established at the post-secondary institution.

• In order to transfer official college credit earned through dual enrollment, the student is responsible for contacting the post-secondary institution where he/she earned the dual enrollment credits and transferring those credits to his/her future post-secondary institution.

---

**Career and Technical Education**

Career and Technical Education programs prepare students for a wide range of college and career opportunities and help students develop the skills that are sought by today’s employers. A variety of Career and Technical Education programs are offered through the Lebanon County CTC as well as through ELCO’s Agriculture Science program. For more information on the opportunities available through the Lebanon County CTC, consult that section of the *Educational Planning Guide*.

Students who desire to attend the Lebanon County CTC should consult with their school counselor for information. Tenth and eleventh-grade students have the opportunity to visit the CTC in the fall of each school year. Applications to attend the CTC are available to students in December of each school year. Acceptance into an over-enrolled program at the CTC is based on a student’s attendance, grades, completed courses, and disciplinary record.

Certain CTC programs are eligible for dual enrollment credit various post-secondary institutions for students meeting established criteria. Students who are enrolled in a program at CTC will have the CTC program listed on their High School transcript. The credits awarded through dual enrollment programs and articulation agreements through the CTC will appear on the respective post-secondary institution’s transcript.
Once accepted into a program at the CTC, students may only withdraw from that program and return to ELCO within the first 10 days of the school year. Otherwise, any request for changes to a student’s CTC status/enrollment will be determined on an individual basis and only with consideration of extenuating circumstances.

Admission to ELCO’s Career and Technical Education Agriculture Science Program is open to all students enrolled at ELCO High School. Students who are interested in pursuing a CTE Agriculture Science course must meet the prerequisites established for each course. Students who complete the appropriate prerequisite courses and are considered to be “program completers” are then eligible to take the corresponding NOCTI exam during the spring of their senior year on established test dates.

**Scheduling of Courses**

Courses listed in the *Educational Planning Guide* may be cancelled or offered via an online program due to limited student requests. Further, students are also cautioned that it may be impossible to schedule all of the courses requested. Therefore, students are encouraged to give careful consideration to the selection of alternate courses during the course request process.

**Schedule Change Procedures**

It is imperative that students and parents dedicate sufficient consideration and discussion to the course selection process. The courses that are selected by students in the spring of each school year determine staffing, course offerings, and the overall development of the master schedule. The decision-making process involved in selecting a student’s course requests should consider the student’s interests, skills, abilities, and post-secondary goals.

The course selection form, signed by a parent/guardian, represents the student’s final course requests. If a signed course selection form is not received from the student by the deadline date, the selections made at the student’s meeting with the counselor will represent the student’s final course requests.

*ALL schedule change requests for the entire academic year must be completed prior to August 14, 2020.* The only exceptions will be for students who successfully complete summer school courses and receive their final grade after this date. Once the school year begins, any request for changes to a student’s schedule will be determined on an individual basis and only with consideration for extenuating circumstances, such as:

- Medical issues that interfere with a student’s ability to take a course. A medical professional’s note indicating that participation in the course will have a negative impact on the student will be necessary.

- Course grades, student testing data, or teacher/counselor recommendation indicate that a change in course level is in the best interest of the student.

- A course needed to fulfill graduation requirements was not scheduled.
• A course was scheduled for which the student did not meet the prerequisite(s).
• An unforeseen opportunity for a challenging and unique educational experience occurred that serves the student’s best interests.
• A student was scheduled for a course that he/she previously completed.
• A student wishes to enroll in a dual enrollment or AP course.
• An irresolvable scheduling conflict or scheduling error occurred.

To request a schedule change, the student must obtain a “schedule change request” form from his or her counselor. All changes must have the approval of the teacher(s) involved, a parent/guardian, the counselor and an administrator. The student must remain in class until notified by the counselor as to when the change will become effective. Schedule changes will not be made to accommodate requests for specific teachers, lunch periods, etc.

Once the school year or semester begins, schedule changes will not be permitted except for the extenuating circumstances listed above and only with administrative approval. Therefore, students must give careful consideration to their course selections in the spring and realize that schedule changes will likely not be possible once the school year begins. The schedule change procedures listed below will be followed for changes that occur once the school year has commenced:

For a semester course:
• If a student withdraws from a semester course between 11 and 23 school days into the course, the dropped course(s) will appear on the student’s transcript with “WP” or “WF” to indicate the student’s withdrawal from the course. A “WP” will be indicated on the student’s transcript if the student had a passing grade at the time of the withdrawal from the course. A “WF” will be indicated on the student’s transcript if the student had a failing grade at the time of the withdrawal from the course.
• If a student withdraws from a semester course after 23 school days into the course, the dropped course will appear on the student’s transcript as a “WF” and will be factored into a student’s GPA with zero credit being earned in the course.

For a year-long course:
• If a student withdraws from a year-long course between 23 and 45 school days into the course, the dropped course(s) will appear on the student’s transcript with “WP” or “WF” to indicate the student’s withdrawal from the course. A “WP” will be indicated on the student’s transcript if the student had a passing grade at the time of the withdrawal from the course. A “WF” will be indicated on the student’s transcript if the student had a failing grade at the time of the withdrawal from the course.
• If a student withdraws from a year-long course after 45 school days into the course, the dropped course will appear on the student’s transcript as a “WF” and will be factored into a student’s GPA with zero credit being earned in the course.
Pupil Personnel Services

Pupil personnel services are available at ELCO High School to help students develop both academically and socially-emotionally. Pupil personnel services are developed and implemented by a team of highly competent educational specialists. The District provides classroom teachers, school counselors, nurses, psychologists, a social worker and administrators to assist students. Other specialists are available through the Lancaster-Lebanon Intermediate Unit and partner agencies.

Counseling Department

The High School Counseling Department strives to promote and enhance student achievement by addressing the academic, personal, and career development needs of students. Major functions are to provide individual and group counseling services to assist students with educational and career planning and to enhance their social-emotional growth. The counselors also guide students in course selection, assist students in career and college planning, and coordinate and maintain a complete record of student progress. Students are encouraged to access their Naviance account for resources related to post-secondary planning.

Academically Talented and Gifted Students

Academically talented and gifted students are encouraged to pursue the most demanding curriculum offered at ELCO, which is comprised of the Advanced Placement (AP) and Honors-level courses listed in the Educational Planning Guide. While it is difficult for any one student to enroll in all of the courses identified, students should request courses that best complement their interests and prepare them for their post-secondary education and career plans. Students are encouraged to combine their core curricular program with electives and extra-curricular opportunities in the areas of fine arts, drama, publications, music, theatre, and interscholastic athletics.

Special Education

Special education support services are available to meet the needs of identified exceptional individuals. Students believed to be eligible for special education services should be directed, through a school counselor, to the Director of Pupil Services.

Homebound Instruction

The Homebound Instruction program is a tutorial service provided for students who have a diagnosed long-term physical or psychological illness that confines them to the home or hospital. Students who expect to be confined for physical disability, illness, injury, or other urgent reasons for more than ten school days should consult with the Assistant Principal for information on the required documentation. The nature of the illness and the length of
the anticipated absence must be verified by the student’s physician. Upon approval, a schedule for homebound instruction will be established.

SAT Prep

SAT Prep materials are available to all prospective SAT test takers via the High School counselors. The counselors encourage students to access the resources available through the College Board and Khan Academy, which has partnered with the creators of the SAT to have exclusive access to build a personalized practice program for students. These tools are free and available for every student to take ownership of their personal learning and their future. Students who take the PSAT will receive a personalized code for access to a personal profile with Khan Academy. The SAT Prep curriculum offers 8 official full-length practice tests, plus study and test-taking tips and thousands of practice questions, video lessons, and hints. Students interested in this program should see one of the school counselors.

Naviance

ELCO High School offers the “Naviance” online program to students and parents to support students’ college and career exploration and readiness. The Naviance platform facilitates students in aligning their strengths and interests to their post-secondary goals. Students will use the various tools within Naviance to identify their strengths, goals, skills and interests, plan their High School course of study, explore careers and post-secondary schools, apply to post-secondary institutions, and search for scholarships. Students and parents may access ELCO High School’s Naviance page at http://connection.naviance.com/eastlebcsh. Questions about the program, as well as information on how to register, should be directed to the school counselors.

PowerSchool

Students and parents are encouraged to frequently access PowerSchool in order to monitor student progress in courses. Teachers update grades in PowerSchool on a regular basis. Daily announcements, attendance, and other student information may also be accessed through the PowerSchool for Parents portal. Information on how to access the PowerSchool for Parents portal may be obtained through the District’s website.

Schoology

Schoology is the District’s Learning Management System and contains information and resources pertaining to all of the student’s courses. Club advisors, staff, and student organizations also utilize Schoology to communicate information to students. Parents may create a Schoology Parent account as well. Information on creating a Schoology account may be obtained through the District’s website.
NCAA Eligibility

Students who are considering playing Division I or Division II intercollegiate sports after high school must complete the eligibility process through the NCAA Eligibility Center. In order to be certified by the NCAA Eligibility Center, students are required to earn specific credits in high school in core courses at the college preparatory level as well as a minimum grade point average and college entrance exam score. If you are interested in continuing your athletic career at the collegiate level, inform your school counselor early in your high school career, preferably during your freshman year and create a Certification Account through the NCAA Eligibility Center. Consult the NCAA Eligibility Center website for information on the specific requirements for certification at https://web3.ncaa.org/ecwr3.

Post-Secondary Planning Timeline

The following are suggested activities for students to complete in order to prepare for their post-graduation goals. For assistance or guidance on any of the activities below, students should consult their school counselor.

<table>
<thead>
<tr>
<th>9th Grade</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>• Select courses that will challenge you and explore areas of interest that align with your post-secondary goals.</td>
<td></td>
</tr>
<tr>
<td>• Develop effective study habits.</td>
<td></td>
</tr>
<tr>
<td>• Get involved in school activities and clubs.</td>
<td></td>
</tr>
<tr>
<td>• Talk with parents, friends, relatives, and neighbors about their careers and explore career information that is available through Naviance.</td>
<td></td>
</tr>
<tr>
<td>• Investigate the various options for post-secondary education.</td>
<td></td>
</tr>
<tr>
<td>• Successfully complete the Freshmen Seminar course and identify a Career Cluster that is of interest to you and matches your identified skills and abilities.</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>10th Grade</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>• Think seriously about your post-secondary goals, identifying what type of post-secondary education, military branch, or employment you would like to pursue.</td>
<td></td>
</tr>
<tr>
<td>• Align your course selections with your post-secondary goals and discuss your goals when meeting with your school counselor.</td>
<td></td>
</tr>
<tr>
<td>• Discuss your goals with your parent/guardian and together explore the resources available through Naviance.</td>
<td></td>
</tr>
<tr>
<td>• Begin to develop an understanding of the financial aid process and explore the various scholarship opportunities that are available.</td>
<td></td>
</tr>
<tr>
<td>• Take the PSAT10 during the spring of your sophomore year.</td>
<td></td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>11th Grade</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>• Communicate your post-secondary goals to your school counselor, teachers, and parents/guardians so that they may best support you in preparing to attain your goals.</td>
<td></td>
</tr>
<tr>
<td>• Gather specific information pertaining to your post-secondary goals, whether that be information specific to post-secondary schools, military branches and opportunities, or career fields.</td>
<td></td>
</tr>
</tbody>
</table>
• Utilize the search features available through Naviance to identify post-secondary schools of interest. Explore the schools’ websites and contact their Admissions Office for more information.
• Monitor the schedule for admissions representatives and military personnel who visit ELCO. Talk to the representatives when they are available in the cafeteria during your lunch period. This is a great opportunity to make personal contact with an admissions rep!
• Take the PSAT/NMSQT in the fall and follow through on the recommended practice through Khan Academy prior to taking the SAT in the spring.
• Attend college and career fairs whenever possible.
• Take the SAT or ACT in March, May, or June of your junior year if you are planning to further your education at a four-year college or other post-secondary institution that requires college entrance exam scores.
• Take AP Exams for the Advanced Placement courses in which you are enrolled.
• Visit post-secondary institutions in the spring and summer in order to identify the list of schools to which you wish to apply.

**12th Grade**

• Continue to explore college search resources to finalize the post-secondary institutions to which you intend to apply.
• Be aware of application procedures and deadlines for each post-secondary institution. Many applications must be submitted online or through the Common Application or Naviance.
• Coordinate each college application with your school counselor and update your information in Naviance.
• Research scholarships offered by each institution as well as those available through the school and community organizations.
• If you have not taken the SAT or the ACT, or wish to retake one or both college entrance exams, register for the correct test early in the school year. Register online at [www.collegeboard.com](http://www.collegeboard.com) or [www.actstudent.org](http://www.actstudent.org).
• Determine if SAT Subject Tests are required by the institutions to which you are applying.
• Attend Financial Aid Information sessions, including the FAFSA Completion Workshop that is held around December each year.
• All seniors applying for financial aid should complete the Free Application for Federal Student Aid (FAFSA) in the fall. Apply online at [www.fafsa.ed.gov](http://www.fafsa.ed.gov).
• If a private post-secondary institution requires the CSS Profile, obtain a profile registration form at [www.collegeboard.com](http://www.collegeboard.com).
• Male students must register for Selective Service 180 days before or 30 days after their 18th birthday. Registration is required in order to be considered for state or federal financial aid. Students may register on the FAFSA application form or at [www.sss.gov](http://www.sss.gov).
• If either of your parents is deceased, disabled, or retired, contact the Social Security Administration for educational benefits.
• If either of your parents is a veteran, contact the Veterans Administration or the American Legion for other financial aid possibilities.
• Review award letters you have received from various schools. Select the school you will attend, but make your decision based on educational considerations ahead of anything else.
• Send your acceptance letter and required deposit to your chosen school, being careful to follow all instructions.
• Notify the other schools to which you have applied that you will not be attending.
• Pay close attention to financial aid deadlines.
**Weighted Class Rank**

*Class rank* is a measure of the academic achievement of any one student in a class in relationship to all other students in the class and is determined using a student’s cumulative weighted GPA. Courses in the core academic areas of English, Math, Science, and Social Studies, World Languages, and advanced elective courses may be given additional weight to calculate a student’s weighted grade average for the purpose of determining class rank. The level assigned to each course is listed in the *Educational Planning Guide*. Courses that are graded on a pass/fail basis do not factor into a student’s weighted grade average or class rank. Class rank is calculated at the conclusion of each school year.

*Class rank* is determined using the weighted factor method, as shown in the table below, to calculate a student’s weighted cumulative grade average. To obtain the weighted grade average, the percent grade assigned by the teacher as the student’s final course grade is multiplied by the number of credits established for the course and then by the weighted factor assigned to the course as indicated below:

<table>
<thead>
<tr>
<th>Level</th>
<th>Weighted Factor</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Level IV</td>
<td>1.12</td>
<td>Includes Advanced Placement (AP), College in the High School, EMT and dual enrollment courses</td>
</tr>
<tr>
<td>Level III</td>
<td>1.06</td>
<td>Includes Honors courses and 3rd and 4th year World Language courses</td>
</tr>
<tr>
<td>Level II</td>
<td>1.03</td>
<td>Includes College Prep courses and advanced elective courses</td>
</tr>
<tr>
<td>Level I</td>
<td>1.00</td>
<td>Includes Applied courses and all courses not otherwise designated</td>
</tr>
</tbody>
</table>

For example,

<table>
<thead>
<tr>
<th>Course</th>
<th>Percent</th>
<th>x</th>
<th>Course Credit</th>
<th>x</th>
<th>Weighted Factor</th>
<th>=</th>
<th>Weighted Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lit, Analysis, and Comp III - CP</td>
<td>87</td>
<td>x</td>
<td>0.5</td>
<td>x</td>
<td>1.03</td>
<td>=</td>
<td>44.805</td>
</tr>
<tr>
<td>Creative Writing</td>
<td>93</td>
<td>x</td>
<td>0.5</td>
<td>x</td>
<td>1.03</td>
<td>=</td>
<td>49.29</td>
</tr>
<tr>
<td>World History – Applied</td>
<td>95</td>
<td>x</td>
<td>1.0</td>
<td>x</td>
<td>1.00</td>
<td>=</td>
<td>95</td>
</tr>
<tr>
<td>AP Statistics</td>
<td>82</td>
<td>x</td>
<td>1.0</td>
<td>x</td>
<td>1.12</td>
<td>=</td>
<td>91.84</td>
</tr>
<tr>
<td>Physics I: Mechanics - Honors</td>
<td>91</td>
<td>x</td>
<td>1.0</td>
<td>x</td>
<td>1.06</td>
<td>=</td>
<td>96.46</td>
</tr>
<tr>
<td>Spanish III</td>
<td>85</td>
<td>x</td>
<td>1.0</td>
<td>x</td>
<td>1.06</td>
<td>=</td>
<td>90.1</td>
</tr>
<tr>
<td>Web Design I</td>
<td>93</td>
<td>x</td>
<td>0.5</td>
<td>x</td>
<td>1.00</td>
<td>=</td>
<td>46.5</td>
</tr>
<tr>
<td>Metal Manufacturing I</td>
<td>89</td>
<td>x</td>
<td>0.5</td>
<td>x</td>
<td>1.00</td>
<td>=</td>
<td>44.5</td>
</tr>
<tr>
<td><strong>TOTALS</strong></td>
<td><strong>6.0</strong></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td>=</td>
<td><strong>558.495</strong></td>
</tr>
</tbody>
</table>

To calculate the student’s weighted grade average, divide the student’s total weighted percentage (558.495 in the above example) by the student’s total number of credits attempted (6.0 credits in the above example) to determine the student’s weighted grade average (which would be 93.0825 in the above example). The weighted grade average is used to determine the student’s class rank.
Valedictorian/Salutatorian

Valedictorian and Salutatorian for graduating seniors are determined after the end of the third marking quarter of the senior year, based on the weighted grades at that time. A final senior class rank is calculated at the conclusion of the school year. Once the valedictorian and salutatorian are determined at the end of the third marking quarter, those positions are fixed.

Percentages/Letter Grades

Letter grades will be assigned to students based on the percent ranges listed below:

<table>
<thead>
<tr>
<th>Percent Range</th>
<th>Letter Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>98-100</td>
<td>A+</td>
</tr>
<tr>
<td>93-97</td>
<td>A</td>
</tr>
<tr>
<td>90-92</td>
<td>A-</td>
</tr>
<tr>
<td>87-89</td>
<td>B+</td>
</tr>
<tr>
<td>83-86</td>
<td>B</td>
</tr>
<tr>
<td>80-82</td>
<td>B-</td>
</tr>
<tr>
<td>77-79</td>
<td>C+</td>
</tr>
<tr>
<td>73-76</td>
<td>C</td>
</tr>
<tr>
<td>70-72</td>
<td>C-</td>
</tr>
<tr>
<td>67-69</td>
<td>D+</td>
</tr>
<tr>
<td>63-66</td>
<td>D</td>
</tr>
<tr>
<td>60-62</td>
<td>D-</td>
</tr>
<tr>
<td>less than 60</td>
<td>F</td>
</tr>
</tbody>
</table>
The Pennsylvania Department of Education has identified five Career Pathways that encompass sixteen Career Clusters. Students are encouraged to investigate the five Career Pathways to assist in planning appropriate course selections that will support their post-secondary goals, particularly within the elective areas.

Descriptions for each Career Pathway are listed on the following pages along with a listing of the ELCO courses that correspond to each Career Pathway. Students should explore the interest and ability questions listed to determine the Career Pathway that most appeals to them in addition to considering the various career exploration activities in which the student has participated, including the activities in Naviance. Students will also find the highest paying, fastest growing, and most employed occupations for each Career Cluster. The occupational information was obtained from the PA Career Zone website at www.pacareerzone.org.

For more information on Pennsylvania’s Career Clusters and Pathways, including relevant employment outlooks, visit the PA Career Zone website.
Arts and Communications Pathway

The Arts and Communications pathway is designed to cultivate students’ awareness, interpretation, application and production of visual, verbal and written work and includes the following Career Clusters:

- Arts
- A/V Technology
- Communication

<table>

## Engineering and Industrial Technology Pathway

The Engineering and Industrial Technology pathway is designed to cultivate students’ interests, awareness and application to careers related to technologies necessary to design, develop, install, and maintain physical systems.

Includes:
- Architecture and Construction
- Manufacturing
- Transportation, Distribution, and Logistics

### Are you interested in...?
- building and construction
- tools, equipment, and materials
- woodworking
- math and science classes
- fitness and sports
- precision work
- design and architecture
- engineering
- computer technology
- production management
- how things work

### Can you...?
- apply science and math to real world issues
- read and understand directions
- solve problems of a complex nature
- understand directives and read maps
- organize reports and people
- see a task through the completion
- use a computer

### Do you enjoy...?
- traveling
- working with your hands
- designing/working with projects
- working in a lab setting
- working on a team
- building with your hands
- operating tools and equipment
- paying close attention to detail

Sample Course Planning Guides

The following course planning guides are provided to assist students in developing a four-year course plan that will prepare them to pursue the post-secondary training needed to fulfill their career goals. The samples provided on the following pages are recommendations of how students should structure their course selections in order to meet graduation requirements and prepare for their career goals and related education. The sample planning guides also reflect the courses that students need to take sequentially in each core academic subject area. Additional information regarding these sequential courses may be found in the department listings in the Educational Planning Guide.

Students will enroll in six credits per school year. Band and chorus will be offered during a flex period and will be scheduled in addition to the six credits.

The “elective” courses indicated on each course plan reflect either .5 credit semester courses or may be combined (as illustrated by the dotted line) as a 1 credit, year-long course. Each curricular department offers a variety of courses for students to select.

Standard Course Plan to Meet Graduation Requirements
The college preparatory curriculum is designed for students who intend to enroll in a higher education program after high school graduation. Students need to carefully consider the particular type of program that they wish to pursue and the institutions to which they intend to apply. It is the responsibility of students planning to enter college to complete a program of studies that will qualify them for admission. Admission requirements vary by post-secondary institution. Program planning should be made in consultation with parents, teachers, and counselors.

For a student planning to enter a four-year college, it is strongly recommended that students complete the minimum credits in each academic area:

- English- 4 credits
- Social Studies- 4 credits
- Mathematics- 4 credits
- Science - 4 credits (minimum 2 credits of a lab science)
- World Language- 2 credits of the same language

Students enrolled in a two-year, half-day CTC program must complete their third credit in Social Studies, Science, and Math during either their junior or senior year. Two of these courses must be scheduled in conjunction with English during the junior year. The remaining third required credit must be scheduled during the student’s senior year.

Career & Technology Center
One-Year, Full-Day Program
Course Plan
## Post-Secondary Opportunities

<table>
<thead>
<tr>
<th>Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>On-the-Job Training</td>
<td>Employer-designed training established for the worker to gain the necessary work skills while he/she is getting paid on the job.</td>
</tr>
<tr>
<td>Diploma or Certificate Program</td>
<td>Short-term programs of 6 months to 1 year to acquire specific skills in order to gain employment at the entry level. These programs may be found at technical schools, community colleges, junior college, and even some universities.</td>
</tr>
<tr>
<td>Military Training</td>
<td>All branches of the military have skilled training for 3 years or more. Students can use their GI Bill to pay for college after their discharge or serve for 20 years until retirement with full benefits.</td>
</tr>
<tr>
<td>Apprenticeship Programs</td>
<td>Industry-based program training works on the job and in a classroom setting as well. Upon completion, the worker will gain journeyman status in the specific industry (3-4 years in length). Apprentices are paid as they go to school.</td>
</tr>
<tr>
<td>Associate Degree Programs</td>
<td>These are terminal 2-year degrees that enable the individual to gain entry-level employment in a specific career. Often, these workers will begin employment after 2 years of school and then obtain future degrees at the employer’s expense. Typical locations are community and junior colleges. Some technical school and most universities have some associate degree programs.</td>
</tr>
<tr>
<td>Bachelor Degree Programs</td>
<td>These are four-year degrees with a combination of general education course work and specific major. They can be liberal arts colleges, private colleges, public colleges, or universities.</td>
</tr>
<tr>
<td>Graduate and Professional Degree Programs</td>
<td>These are the post-graduate fields such as law, medicine, and Ph. D or other professional fields, typically 1 to 5 years beyond a bachelor’s degree.</td>
</tr>
</tbody>
</table>

# AGRICULTURE SCIENCE AND TECHNOLOGY

Students must be enrolled in an Agriculture class each year to maintain membership in FFA as required by National & State FFA and Agriculture Education guidelines.

## Agriculture Mechanics (HS551)

<table>
<thead>
<tr>
<th>Grade Level: 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
</tbody>
</table>

Prerequisite: Introduction to Agriculture or teacher approval

This course will cover the agriculture mechanics careers, orientation, personal safety, lab organization, safe use of machines and power tools, project planning layout procedures, marking, cutting and bending metal, proper tool fitting, principles of electricity and electrical wiring in agriculture, operation, trouble shooting, repair of electric motors, plumbing technology and insulation, principles of hydraulics, concrete and masonry technology, design, and construction. The topics of welding and use of the Plasma Cutter and advanced small gas engine operation and troubleshooting will also be covered. Students will be guided through SAFE machine operation and are required to demonstrate all safe operating procedures. A $20 class fee is required to supplement the cost of student consumables.

## Agribusiness (HS509)

<table>
<thead>
<tr>
<th>Grade Level: 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
</tbody>
</table>

Prerequisite: Introduction to Agriculture or teacher approval

This course provides information and skills for careers in agribusiness and in the operation of entrepreneurial ventures. Topics include economic principles, budgeting, financing, types of agribusiness, recordkeeping, marketing, futures markets, and problem solving and decision making. A survey of careers within the agricultural industry may also be incorporated. Students will be required to create and maintain an agribusiness venture for the duration of the course. This course is offered in alternating years and will NOT be offered during the 2020-2021 school year.

## Companion Animals and Equine Science (HS502)

<table>
<thead>
<tr>
<th>Grade Level: 10, 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
</tbody>
</table>

Prerequisite: Any Agriculture course or teacher approval

Concurrent enrollment in SAE Independent Study is required.

Students will learn the basics of horse, dog, cat and other small animal care. Course topics will also cover the basics of genetics, anatomy and animal rights. This course includes guest speakers and some out of classroom experiences. Students will learn about career opportunities and gain hands-on experience. All students will be required to care for a small animal. This course is offered in alternating years and will NOT be offered during the 2020-2021 school year.
**FFA & Leadership (HS503)**

<table>
<thead>
<tr>
<th>Grade Level: 10, 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
</tbody>
</table>

Prerequisite: Any Agriculture course or teacher approval

Concurrent enrollment in SAE Independent Study is required.

In this course, students will learn about the National FFA Organization through an in-depth look of the history and timeline of the organization. Students will use the Official FFA Manual as a guide to learning about the organization and all of the opportunities it has to offer. Students will gain knowledge of proper parliamentary procedure etiquette to efficiently and effectively conduct business meetings. Students will also attain valuable leadership, problem solving, and communication skills. Throughout this course, students will have the opportunity to participate in FFA competitions, events, and other various projects. It is highly recommended that all students in this course are members of the FFA, are FFA Officers, or are students interested in becoming an FFA Officer.

---

**Introduction to Agriculture Science (HS501)**

<table>
<thead>
<tr>
<th>Grade Level: 9, 10, 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
</tbody>
</table>

This course is a prerequisite for all other classes in the Agriculture department and is intended to introduce students to the broad area of agriculture. Topics will include general United States and Pennsylvania agriculture, FFA, plant science, animal science, public speaking, Ag Business, and careers in agriculture. Students will be required to care for an animal in this course and to keep records on their care in order to learn how to keep Supervised Agriculture Experience records for future Agriculture courses. Students will also grow plants in this course. Food labs will also be included in the course. The facilities include an aquaculture (fish room), small animal lab, shop, greenhouse and classroom. A $20 class fee is required to supplement the cost of student consumables.

---

**Introduction to Horticulture (HS505)**

<table>
<thead>
<tr>
<th>Grade Level: 10, 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
</tbody>
</table>

Prerequisite: Any Agriculture course or teacher approval

Concurrent enrollment in SAE Independent Study is required.

This course introduces students to the many areas of horticulture and plant science. Course topics include plant identification, greenhouse & nursery production, floral design, landscaping, pest management, and career opportunities in plant systems. Students will grow and propagate plants, maintain and manage a greenhouse, develop hydroponic growing systems, and design their own horticulture landscapes. There are plant identification walks in this course along with other outdoor activities. This course is offered in alternating years and WILL be offered during the 2020-2021 school year. A $20 class fee is required to supplement the cost of student consumables.
**Production Agriculture (HS506)**

Grade Level: 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00 (Level I)

Prerequisite: Any Agriculture course or teacher approval  
Concurrent enrollment in SAE Independent Study is required.

This course introduces students to the many areas of production agriculture with an emphasis on production of America's food supply. Students will complete units on soil science and crop production. Students will also learn the basics of swine, beef, dairy, poultry, goat, and sheep production. There will be food labs, guest speakers and some out of classroom experiences. *This course is offered in alternating years and WILL be offered during the 2020-2021 school year. A $20 class fee is required to supplement the cost of student consumables.*

---

**Supervised Agriculture Experience Independent Study (SAE) (HS510)**

Grade Level: 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00 (Level I)

Prerequisite: Any Agriculture course or teacher approval.

An SAE program is the hands-on application of concepts and principles learned in the agriculture classroom. Students are supervised by agriculture education teachers, parents, employers and/or other adults who assist in student development and achievement of their career goals. Students may complete any of the approved projects listed by the National FFA Proficiency areas and must keep an accurate Pennsylvania FFA Organization Record Book. The types of SAE programs are entrepreneurship, placement, conservation, improvement, practicum skills and research. Students will need to schedule and meet with the instructor twice per month to review progress. The instructor will visit projects as needed. *All students enrolled in upper level Agriculture courses are required to enroll in this course.*

---

**Welding and Industrial Machining (HS562)**

Grade Level: 9, 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00 (Level I)

Students will learn the welding and industrial machining processes, while designing and fabricating various metal working projects.

<table>
<thead>
<tr>
<th>Welding processes</th>
<th>Machining</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Stick – shielded metal arc welding (SMAW)</td>
<td>• Mill</td>
</tr>
<tr>
<td>• MIG – gas metal arc welding (GMAW)</td>
<td>• Lathe</td>
</tr>
<tr>
<td>• TIG – gas tungsten arc welding (GTAW)</td>
<td>• CNC plasma Cam programming</td>
</tr>
</tbody>
</table>

Students will be guided through SAFE machine operation and are required to demonstrate all safe operating procedures. *A $20 class fee is required to supplement the cost of student consumables.*
Wildlife & Forestry Management (HS508)

Grade Level: 10, 11, 12
Credits: .5
Prerequisite: Any Agriculture course or teacher approval
Concurrent enrollment in SAE Independent Study is required.

Length of Course: 90 days
Weight: 1.00 (Level I)

This course covers the topics of wildlife and forestry management, which includes the study of animals common to Pennsylvania. Students will learn the history of wildlife conservation in America, endangered species and the conservation methods used today including hunting. Students will also learn about wildlife habitats and careers. The course also addresses the basic principles of forestry including tree identification, forest ecology, forest management, wood identification, and forest pests. The aquatics portion of the course includes aquatic life identification, lake behavior, watersheds and water pollution. Students will learn about career opportunities in both areas. This course may include some outdoor instruction. This course is offered in alternating years and will NOT be offered during the 2020-2021 school year.
# ART

## Art I  (HS601)

<table>
<thead>
<tr>
<th>Grade Level: 9, 10, 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
</tbody>
</table>

Art I is a course that builds on students’ knowledge of the elements and principles of design, which are essential when creating and assessing two and three-dimensional art. Creative problem solving, learning and improving technique and creating with a variety of materials is emphasized. Areas of study include color theory, drawing, painting, sculpture, design, art history, art criticism, and aesthetics.  

*A $20 class fee is required to supplement the cost of student consumables.*

## Art II  (HS602)

<table>
<thead>
<tr>
<th>Grade Level: 10, 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
<tr>
<td>Prerequisite: Art I (80% or higher)</td>
<td></td>
</tr>
</tbody>
</table>

An advanced in depth understanding and application of design principles are applied to the creative problem solving process. Students will gain knowledge of the four tenants that drive this course: Art Production, Art Criticism, Art History, and Aesthetics.  

*A $20 class fee is required to supplement the cost of student consumables.*

## Art III  (HS603)

<table>
<thead>
<tr>
<th>Grade Level: 10, 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.03 (Level II)</td>
</tr>
<tr>
<td>Prerequisite: Art I and Art II (80% or higher)</td>
<td></td>
</tr>
</tbody>
</table>

Finding and creating meaning in art and increasing advanced technical skills are learned. A self-guided creative problem solving classroom atmosphere will prevail. Students are expected to challenge their "known" abilities and build upon their strengths. Time management and teacher to student dialogue will be a constant while developing and understanding their creative works.  

*A $20 class fee is required to supplement the cost of student consumables.*

## Independent Art  (HS610)

<table>
<thead>
<tr>
<th>Grade Level: 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.03 (Level II)</td>
</tr>
<tr>
<td>Prerequisite: Art I, Art II, Art III (80% or higher), or Pottery I, Pottery II (80% or higher), and/or teacher approval</td>
<td></td>
</tr>
</tbody>
</table>

This course is designed for the very serious art honor student who has time within his or her schedule to take this independent course in their senior year. Individual artistic development is expected, and creative problems and goals will be developed with instructor approval and guidance.  

*A $20 class fee is required to supplement the cost of student consumables.*
**Portfolio (HS611)**

Grade Level: 12  
Credits: .5  
Length of Course: 90 days  
Weight: 1.06 (Level III)  
Prerequisite: Art I, Art II, Art III (80% or higher) and/or teacher approval

The Portfolio course is designed for senior art honor students who intend to pursue a post-secondary education in art, or the serious art honor student who wishes to continue his/her artistic development. *A $20 class fee is required to supplement the cost of student consumables.*

---

**Pottery I (HS620)**

Grade Level: 9, 10, 11, 12  
Credits: .5  
Length of Course: 90 days  
Weight: 1.00 (Level I)  
Prerequisite: Art I (80% or higher)

In the beginning pottery class, students will learn several different hand building techniques. These will include pinch pots, coil, and slab building methods. Students will also explore different surface design techniques and ideas, and glazing will be introduced. Individual creativity within each of the techniques will be encouraged. Students will produce both functional as well as sculptural pieces. Students will learn about the historical development of pottery produced by artisans and by various cultures while using the critical process to discuss and evaluate their own work in addition to master works in clay. *A $20 class fee is required to supplement the cost of student consumables.*

---

**Pottery II (HS621)**

Grade Level: 10, 11, 12  
Credits: .5  
Length of Course: 90 days  
Weight: 1.00 (Level I)  
Prerequisite: Pottery I (80% or higher)

Pottery II will provide students the opportunity to develop wheel and advanced hand building skills as they continue to study the historical and cross-cultural development of pottery styles and techniques. Art criticism and aesthetic issues related to form and function, the inherent expressive qualities of clay and the identification of good craftsmanship and design will continue to be an ongoing part of the curriculum. *A $20 class fee is required to supplement the cost of student consumables.*

---

**Printmaking (HS606)**

Grade Level: 9, 10, 11, 12  
Credits: .5  
Length of Course: 90 days  
Weight: 1.00 (Level I)  
Prerequisite: Art I (80% or higher)

Printmaking is a studio art course in which students will learn about different types of traditional and contemporary printmaking processes. Throughout the semester, students will have the opportunity to create images using a variety of printmaking techniques and processes. Projects will include linoleum printing, collographs, and monoprinting. *A $20 class fee is required to supplement the cost of student consumables.*
# BUSINESS AND COMPUTER TECHNOLOGY

## Accounting IA (HS716)

<table>
<thead>
<tr>
<th>Grade Level:</th>
<th>10, 11, 12</th>
<th>Length of Course:</th>
<th>90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits:</td>
<td>.5</td>
<td>Weight:</td>
<td>1.00 (Level I)</td>
</tr>
<tr>
<td>Prerequisites:</td>
<td>General Business recommended.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Accounting IA prepares students to develop the ability to analyze and record financial transactions, and interpret the results of personal and business operations from a financial standpoint. Students gain a wide background in personal and business organization, procedures, and related technology. *Any student interested in pursuing a degree in Business should complete Accounting IA, IB, and II.*

## Accounting IB (HS717)

<table>
<thead>
<tr>
<th>Grade Level:</th>
<th>10, 11, 12</th>
<th>Length of Course:</th>
<th>90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits:</td>
<td>.5</td>
<td>Weight:</td>
<td>1.00 (Level I)</td>
</tr>
<tr>
<td>Prerequisites:</td>
<td>Accounting I or IA (70% or higher)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Accounting IB continues to introduce students to various business transactions focusing on more complex business structures. Students will focus on automated practices and accounting simulations. *Any student interested in pursuing a degree in Business should complete Accounting IA, IB, and II.*

## Accounting II (HS712)

<table>
<thead>
<tr>
<th>Grade Level:</th>
<th>11, 12</th>
<th>Length of Course:</th>
<th>90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits:</td>
<td>.5</td>
<td>Weight:</td>
<td>1.03 (Level II)</td>
</tr>
<tr>
<td>Prerequisites:</td>
<td>Accounting IB (80% or higher)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Accounting II provides an opportunity for students to apply basic accounting principles to a variety of accounting systems and methods via independent study. Accounting problems of greater depth provide an excellent academic challenge to the advanced accounting student. Students interested in pursuing a degree in accounting or similar profession should complete the sequence of accounting courses. *Any student interested in pursuing a degree in Business should take Accounting IA, IB, and II.*
**Accounting III  (HS713)**

Grade Level: 12  
Credits: .5  
Prerequisites: Accounting II (80% or higher)

Length of Course: 90 days  
Weight: 1.03 (Level II)

Accounting III offers the opportunity for an individual to continue to apply advanced accounting principles to a variety of accounting systems and methods and provides an excellent academic challenge for the advanced accounting student. This independent study course is designed to prepare students to excel in their beginning accounting courses in college. Students interested in pursuing a degree in accounting or a similar profession should complete the sequence of Accounting courses.

**AP Computer Science Principles  (HS728)**

Grade Level: 11, 12  
Credits: 1.0  
Prerequisites: Computer Applications (80% or higher) and Web Design I (80% or higher)

Length of Course: 180 days  
Weight: 1.12 (Level IV)

The AP Computer Science Principles course focuses on the computer science skills that are in high demand and valued by colleges and employers. The course will cover a broad range of computer science topics, including programming, algorithms, the Internet, big data, digital privacy and security, and the societal impacts of computing. This course seeks to provide students with a “future proof” foundation in computing principles so they are adequately prepared with both the knowledge and skills to live and meaningfully participate in our increasingly digital society, economy, and culture.

**Animation  (HS723)**

Grade Level: 9, 10, 11, 12  
Credits: .5

Length of Course: 90 days  
Weight: 1.00 (Level I)

Students will explore techniques used in creating animation using standard software. This course will enhance skill development in storyboarding and animation. Students will work individually and cooperatively in a project-based environment.

**Business Math  (HS734)**

Grade Level: 11, 12  
Credits: .5

Length of Course: 90 days  
Weight: 1.00 (Level I)

This course is designed for students to have the opportunity to understand mathematics in the context of business and finance. Students will gain insight into the mathematic principles associated with business operations and personal finance.
Career Connections (HS714)
Grade Level: 11, 12
Length of Course: 90 days
Credits: .5
Weight: 1.00 (Level I)

This course is designed to help students begin to plan for their future and develop skills needed to experience personal success. Students focus on developing their communication, time management, and human relation skills while exploring their individual aptitudes and interests to determine possible career paths. Students will be challenged to develop leadership skills while planning, organizing, and completing a project that addresses a community need. Finally, the course culminates with learning job preparation skills. Whether pursuing college or employment after high school, the units in this course will teach practical skills that can be used in all aspects of employment as well as in personal life.

Computer Applications (HS720)
Grade Level: 9, 10, 11, 12
Length of Course: 90 days
Credits: .5
Weight: 1.00 (Level I)

This course will introduce students to a variety of computer programs and concepts including: desktop publishing, spreadsheets, photo editing/drawing, and web graphics. The skills learned in this course can be easily applied to other programs, classes, and real-life situations. Students are not expected to have prior knowledge of the course’s programs but will have more than a basic understanding of multiple programs at the conclusion of the course.

Computer Graphics (HS724)
Grade Level: 9, 10, 11, 12
Length of Course: 90 days
Credits: .5
Weight: 1.00 (Level I)
Prerequisites: Computer Applications (80% or higher)

Students are expected to have prior Adobe Create Suite knowledge and the ability to execute basic functions. Students will utilize the Adobe Create Suite to complete individual design projects. Emphasis will be placed on advanced concepts in order to create personal and professional design. Students are expected to be able to create and work independently on projects that will last multiple days.

Digital Video (HS725)
Grade Level: 9, 10, 11, 12
Length of Course: 90 days
Credits: .5
Weight: 1.00 (Level I)

Introduces students to the basics of postproduction non-linear digital video editing for multimedia, video and web capabilities. Students will produce, edit, and optimize video using editing software. Upon completion of the course students will be able to create and produce digital videos and incorporated compressed and rendered projects into CD ROMs, DVD and Web technologies.
Entrepreneurship (HS732)
Grade Level: 10, 11, 12
Credits: .5
Prerequisites: Accounting IA/IB recommended

Length of Course: 90 days
Weight: 1.00 (Level I)

Students enrolling in this course will explore a variety of entrepreneurial topics. The course begins by determining the skills necessary to find success as an entrepreneur by researching stories of several famous entrepreneurs. Students will then be instructed in the principles of management for small business. They will also develop an understanding of entrepreneurial concepts and strategies and how they can use their unique skills and talents to start a small business venture. The course addresses topics critical in the planning process including general operations, financing, marketing, and human resource issues. The course culminates with the creation and presentation of a student generated business plan.

Freshmen Seminar (HS701)
Grade Level: 9
Credits: .25

Length of Course: 45 days
Weight: 1.00 (Level I)

Students will explore career paths and choices in order to recognize if a career choice will allow for the development of the student's natural talents and interests. Students will demonstrate readiness to enter the world of work by exhibiting the qualities of a good employee, such as good attendance, timeliness of task completion, ethical behavior, self-motivation, and behaving in a professional manner. This course is required for all ninth-graders and alternates every other day with Physical Education 9 for one semester.

General Business (HS730)
Grade Level: 9, 10
Credits: .5

Length of Course: 90 days
Weight: 1.00 (Level I)

General Business will acquaint students with the American business system. Throughout the course, students will learn a variety of business concepts including managing checking and savings accounts, consumer purchasing, economics and business structures. This course is an excellent starting point for students who are considering a career in business.

Marketing (HS733)
Grade Level: 10, 11, 12
Credits: .5
Prerequisites: General Business recommended

Length of Course: 90 days
Weight: 1.00 (Level I)

Students will study economic functions at work in the marketplace and marketing functions including purchasing, pricing, and distribution functions. Emphasis will be placed on communication skills, economics, financial analysis, and promotion. Exposure to career opportunities in the field of marketing and specific topics will be covered, including advertising, selling skills and promotion.
**Personal Finance (HS731)**

Grade Level: 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00 (Level I)

Personal Finance is a course designed to help students understand the impact of individual choices on occupational goals and future earning potential. Real world topics covered will include income, money management, spending and credit, as well as saving and investing. Students will design personal and household budgets utilizing checking and savings accounts, gain knowledge in finance, debt and credit management, and evaluate and understand insurance and taxes. This course will provide a foundational understanding for making informed personal financial decisions leading to financial independence.

**Technology Exploration (HS729)**

Grade Level: 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.06 (Level III)

Prerequisites: Teacher recommendation only.

Students will have the opportunity to enhance their computer knowledge and skills by participating in advanced technology projects. Projects may include animation concepts and design as well as videography. Students will be responsible for identifying their projects based on individual interests as they relate to technology. This course is presented in an independent study format and will be supplemented with classroom instruction. Students must obtain teacher approval for enrollment.

**Web Design I (HS721)**

Grade Level: 9, 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00 (Level I)

This course is designed to introduce high school students to various skills, methods, and techniques related to basic web design, including HTML coding, CSS (cascading style sheets), image optimization, basic animations, rollovers, and Adobe Dreamweaver. Students will be required to utilize a number of learned web design skills as well as real-life aptitudes such as reading, writing, creativity, self-expression, problem solving, attention to detail, work ethic, and communication skills. The main focus of this class will be production (the actual creation of web pages and web sites); however, attention will also be design (the organization or structure of formal elements in a composition / the combination of details or features of a composition).
Students will have the opportunity to enhance their computer knowledge and skills by learning advanced design techniques with coding. The goal of this course is to provide students with the study of advanced topics in web design. Topics include the web development process, advanced layout and design features, advanced study of scripting languages, site development with HTML editors, and web servers and databases. This course is presented in an independent study format and supplemented with classroom instruction.

Prerequisite: 8th Grade English (80% or higher), Proficient or Advanced score on the 8th-grade English Language Arts PSSA, and teacher recommendation

This fast-paced course is designed to meet the needs of highly motivated students who demonstrate exceptional abilities in the study of English. Students who select this course are expected to read longer passages of text, comprehend text independently, and analyze text accurately. Reading selections are comprised of both fiction and non-fiction pieces organized to analyze the themes of empathy, leadership, dreams and aspirations, and relationships. Emphasis is given to the skills of comprehension, vocabulary acquisition, making connections among ideas and between texts with a focus on textual evidence. Students will engage in multiple stages of the writing process and produce works in a variety of styles. Students are expected to write in response to literature as well as conduct research in order to compose work that clearly conveys a well-defined perspective and use of appropriate content. **Fulfillment of a summer reading requirement is necessary prior to commencement of the course. Information will be posted on the High School webpage.**
Literature, Analysis, and Composition I (LAC) – College Prep  (HS012)

Grade Level: 9  
Credits: 1  
Length of Course: 180 days  
Weight: 1.03  
(Level II)

This course is designed to meet the needs of students who plan to pursue post-secondary studies. Reading selections are comprised of both fiction and non-fiction pieces organized to analyze the themes of empathy, leadership, dreams and aspirations, and relationships. Emphasis is given to the skills of comprehension, vocabulary acquisition, making connections among ideas and between texts with a focus on textual evidence. Students will engage in multiple stages of the writing process and produce works in a variety of styles. Students are expected to write in response to literature as well as conduct research in order to compose work that clearly conveys a well-defined perspective and use of appropriate content. Fulfillment of a summer reading requirement is necessary prior to commencement of the course. Information will be posted on the High School webpage.

Literature, Analysis, and Composition I (LAC) – Applied  (HS013)

Grade Level: 9  
Credits: 1  
Length of Course: 180 days  
Weight: 1.00  
(Level I)

This course is designed to meet the needs of students who are interested in becoming career ready. Reading selections are comprised of both fiction and non-fiction pieces organized to analyze the themes of empathy, leadership, dreams and aspirations, and relationships. Emphasis is given to the skills of comprehension, vocabulary acquisition, making connections among ideas and between texts with a focus on textual evidence. Students will engage in multiple stages of the writing process and produce works in a variety of styles. Students are expected to write in response to literature as well as conduct research in order to compose work that clearly conveys a well-defined perspective and use of appropriate content. Fulfillment of a summer reading requirement is necessary prior to commencement of the course. Information will be posted on the High School webpage.

Literature, Analysis, and Composition II (LAC) – Honors  (HS021)

Grade Level: 10  
Credits: 1  
Length of Course: 180 days  
Weight: 1.06  
(Level III)

Prerequisites: Honors Literature, Analysis, and Composition I (80% or higher); Proficient or Advanced score on the 8th-grade English Language Arts PSSA or teacher recommendation

This fast-paced course is designed to meet the needs of high achieving English students who follow the Advanced Placement track, meet the prerequisite, and receive recommendation from the previous year’s English teacher. Students who select this course are expected to read longer passages of text, comprehend text independently, and analyze text accurately. Reading selections are comprised of both fiction and non-fiction pieces organized to analyze the themes of destiny, taking a stand, technology, and the human connection. Emphasis is given to the skills of comprehension, vocabulary acquisition, making connections among ideas and between texts with a focus on textual evidence. Students will engage in multiple stages of the writing process and produce works in a variety of styles. Students are expected to write in response to literature as well as conduct research in order to compose work that clearly conveys a well-defined perspective and
use of appropriate content. *Fulfillment of a summer reading requirement is necessary prior to commencement of the course. Information will be posted on the High School webpage.*

Literature, Analysis, and Composition IV (LAC)  (HS044)

Grade Level: 12  
Length of Course: 180 days
Credits: 1  
Weight: 1.03  (Level II)

This course is designed to prepare students for the current and projected demands of a global, knowledge based 21st century society. Emphasis will be placed on developing analytic and communication skills necessary for success in the fast-paced world of post-secondary academia and workforce. Students will engage with course content organized to analyze the themes of the epic hero, the human condition, an exchange of ideas, and/or emotional currents. *Fulfillment of a summer reading requirement is necessary prior to commencement of the course. Information will be posted on the High School webpage.*

AP Capstone - Seminar (HS053)

Grade Level: 11,12  
Length of Course: 180 days
Credits: 1  
Weight: 1.12  (Level IV)
Prerequisites: Literature, Analysis, and Composition II or III – Honors (90% or higher), a Proficient or Advanced score on the Literature Keystone Exam, and teacher recommendation

AP Seminar is the foundational course for the AP Capstone program. AP Capstone is an innovative college-level program based on the completion of two courses, AP Seminar and AP Research. The program immerses students in the challenging practice of the critical skills students need today. The ability to think independently, write effectively, research, collaborate, and learn across disciplines is essential for success in college and beyond. The rigorous nature of AP Capstone will challenge students to explore different points of view and make connections across disciplines, leading to a rich appreciation for the complexity of important issues.

AP Seminar engages students in cross-curricular conversations that explore the complexities of academic and real-world topics and issues by analyzing divergent perspectives. Using an inquiry framework, students practice reading and analyzing articles, research studies, and foundational literary and philosophical texts; listening to and viewing speeches, broadcasts, and personal accounts; and experiencing artistic works and performances. Students learn to synthesize information from multiple sources, develop their own perspectives in research-based written essays, and design and deliver oral and visual presentations, both individually and as part of a team. Ultimately, the course aims to equip students with the power to analyze and evaluate information with accuracy and precision in order to craft and communicate evidence-based arguments. *AP Seminar is the prerequisite course for AP Research. Fulfillment of a summer reading requirement is necessary prior to commencement of the course.*

In order to earn the AP Capstone Diploma through the College Board, students must earn scores of 3 or higher on both the AP Seminar and AP Research Exams, as well as on four additional AP Exams of their choosing.

Students who earn scores of 3 or higher on AP Seminar and AP Research but not on four additional AP Exams receive the AP Seminar and Research Certificate through the College Board.
**Advanced Placement English Language and Composition (HS051)**

Grade Level: 11, 12  
Length of Course: 180 days  
Credits: 1  
Weight: 1.12 (Level IV)  
Prerequisites: Literature, Analysis, and Composition II or III – Honors (90% or higher), a Proficient or Advanced score on the Literature Keystone Exam, and teacher recommendation

This rigorous course is designed for the highest achieving English students who desire to complete high school studies equivalent to a one-semester college introductory course in English.

AP English Language and Composition cultivates the reading and writing skills that students need for college success and for intellectually responsible civic engagement. This writing intensive course guides students in becoming curious, critical, and responsive readers of diverse texts, and becoming flexible, reflective writers of texts addressed to diverse audiences for diverse purposes. The reading and writing done by students in this course will deepen and expand their understanding of how written language functions rhetorically. *Fulfillment of a summer reading requirement is necessary prior to commencement of the course.*

**Advanced Placement English Literature and Composition (HS050)**

Grade Level: 12  
Length of Course: 180 days  
Credits: 1  
Weight: 1.12 (Level IV)  
Prerequisites: Literature, Analysis, and Composition III – Honors (90% or higher), a Proficient or Advanced score on the Literature Keystone Exam, and teacher recommendation

This rigorous course is designed for the highest achieving English students who desire to complete high school studies equivalent to a one-semester college introductory course in English.

The AP English Literature and Composition course focuses on reading, analyzing, and writing about imaginative literature (fiction, poetry, drama) from various periods. Students engage in close reading and critical analysis of imaginative literature to deepen their understanding of the ways writers use language to provide both meaning and pleasure. As they read, students consider a work’s structure, style, and themes, as well as its use of figurative language, imagery, and symbolism. Writing assignments include expository, analytical, and argumentative essays that require students to analyze and interpret literary works. Students must be able to read and comprehend college-level texts and write grammatically correct, complete sentences. *Fulfillment of a summer reading requirement is necessary prior to commencement of the course.*
Electives (Do not fulfill graduation requirements for English Language Arts.)

**Television and Film Production I (HS078)**

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

This course will include an in-depth study and application of television production techniques. Students will focus on the writing techniques behind the development behind multiple genres of television. Students will study the structural design behind the development of commercials, sitcom comedies, TV dramas, and miniseries. This knowledge will be utilized in the creation of television miniseries that will focus on long-term story arcs as well as episodic arcs. These scripts will then be produced applying visual techniques learned in TV and Film Production I. Students are expected to arrive each school day at 7:20 a.m. to prepare for the morning announcements.

**Television and Film Production Management (HS080)**

<table>
<thead>
<tr>

</tr>
<tr>
<td>Grade Level: 11, 12</td>
<td>Weight: 1.03 (Level II)</td>
</tr>
</tbody>
</table>

This course will give students the choice between an in-depth look at the structure of either an independent film or a documentary. This knowledge will be applied in the development of a final project that will focus on act structure, character development, and the development of a universal truth. These scripts will then be produced applying visual techniques learned in TV and Film Production I and II. Students are expected to arrive each school day at 7:20 a.m. to prepare for the morning announcements.
### Yearbook Journalism I (HS070)

<table>
<thead>
<tr>
<th>Grade Level: 9, 10, 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
<tr>
<td>Prerequisite: Concurrent enrollment in Honors or CP Literature, Analysis, and Composition</td>
<td></td>
</tr>
</tbody>
</table>

This course will cover several aspects of producing the high school yearbook and DVD supplement. Students will sell advertisements, take photographs, scan and crop pictures, write body copy, captions, headlines, and create yearbook pages digitally using InDesign, Photoshop, and other programs critical to the creation of the school yearbook. The students will also learn basic video skills and digital video editing. This class involves a great deal of dedication and time outside of class; making deadlines is absolutely necessary. Students in this class must complete an application form, attend orientation meetings, write a 500 word essay, and be approved by the yearbook advisor and current English teacher. Enrollment is limited.

### Yearbook Journalism II (HS071)

<table>
<thead>
<tr>
<th>Grade Level: 9, 10, 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>

</tr>
<tr>
<td>Prerequisite: Yearbook Journalism I (80% or higher) and approval of yearbook advisor</td>
<td></td>
</tr>
</tbody>
</table>

This course will include in-depth practice and application of journalistic methods, interviewing practices, writing, and graphic design. There will be a heavy emphasis on developing the journalistic writing style. Projects will include reading and writing news, feature, sports, and editorial articles. Students will apply advanced photography and graphic design knowledge to create layouts that are visually appealing. Students will make extensive use of their working knowledge of InDesign, Photo Shop, Illustrator, and Microsoft Word, and other programs critical to the creation of the school yearbook. This is a co-curricular course, which means that outside-of-class time will be required as a part of the student's grade. Students will be expected to come in after school to complete assignments as necessary. Students must also come in on Saturdays and after school on Fridays as scheduled (approximately one each per month). Students will also attend various extra-curricular events to take photographs and obtain information for stories and captions. Enrollment is limited.

### Yearbook Journalism Management (HS072)

<table>
<thead>
<tr>

<td></td>
</tr>
</tbody>
</table>

This course will continue in-depth practice and application of journalistic methods, interviewing practices, writing, and graphic design. Students will manage the production of the High School’s yearbook and the business operations involved with producing the annual publication. Yearbook management students will supervise and assist other students in projects related to production of journalistic articles and layout. This is a co-curricular course, which means that outside-of-class time (including after school and Saturdays) will be required as a part of the student’s grade. Students will also attend various extra-curricular events to take photographs and obtain information for stories and captions. Enrollment is limited.
FAMILY AND CONSUMER SCIENCES

**Cooking Light and Easy (HS750)**

This course is for college-bound students who intend to major in any education-related field K thru 12. Students will demonstrate an understanding of the integration of curriculum and instruction to meet a student’s developmental needs. Students will experience what it is like to major in the education field by researching college expectations, talking with current college students majoring in education, and exploring colleges that excel in teaching students how to teach. Students will be encouraged to visit teachers currently teaching the grade/subject area that interests them most. Students will have the opportunity for in-depth study and practical application.
Fashion, Textiles and Apparel  (HS753)

Grade Level: 9, 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00  (Level I)

Students will delve into the world of fashion and textiles, exploring their ability to create a project of their choice. Students will use consumer math skills to measure, calculate cost per wear, create a clothing budget, and determine percent discount. This course also allows students to investigate careers in the clothing and textile industry. Students will provide their own materials for their chosen projects. *A $20 class fee is required to supplement the cost of student consumables.*

Global Cuisine  (HS754)

Grade Level: 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00  (Level I)

Prerequisite: Cooking Light and Easy strongly recommended

The majority of this course involves exploring the culture and foods of various countries. Students will expand their horizons by studying the geography, history, populations, and food customs of the country as they relate to and influence current cuisine. Students will also consider the psychological, familial, and societal influences on their own personal food choices as well as nutrition across the lifespan. *A $20 class fee is required to supplement the cost of student consumables.*

Human Development  (HS763)

Grade Level: 9, 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00  (Level I)

This course offers an overview of human development from prenatal through adolescence. Students will study theories, conditions and strategies that promote healthy development in children. Students will focus on the educational needs of children of all ages and discover how to encourage their physical, intellectual, emotional and social development and growth. This course is designed for anyone interested in a career in which they will work with children, including education, nursing, and human service professions.

Living On Your Own  (HS756)

Grade Level: 9, 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00  (Level I)

Students will learn the roles and responsibilities needed to function as an independent adult. Good decision-making, goal setting, and communication are key to success, and students will use practical reasoning to acquire these skills. In addition, students will consider possible college and career options. Smart shopping via assessing consumer needs and spending strategies relating to personal finance will be explored. Students will have a hands-on experience with housekeeping, laundering, sewing and kitchen skills. *A $20 class fee is required to supplement the cost of student consumables.*
**Nutrition and Food Science (HS757)**

Grade Level: 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00 (Level I)  
Prerequisite: Cooking Light and Easy strongly recommended

Students will examine the six major nutrients as they relate to food science and nutrition. The “what, why, and how” are the three components involved in studying each major nutrient.  
- What are the scientific principles related to the nutrient?  
- Why do I need this nutrient to be healthy?  
- How do I apply this knowledge to food preparation in the foods lab?  
An additional unit of Farm to Table will also be presented.  
This course will also introduce students to STEM careers in nutrition, dietetics, and food science.  
*A $20 class fee is required to supplement the cost of student consumables.*

**Preschool: Age 3 (HS760)**

Grade Level: 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00 (Level I)  
Prerequisite: Human Development strongly recommended

Students will explore the unique needs of three year olds, by planning activities and lesson materials that are age specific. Students will work as a team to create an exceptional and safe learning environment for the young child(ren) for whom you will be instructing these lessons.  
Preschool age students from the community will be coming in to the High School, thus providing students with a real-world experience as an educator. **A $20 class fee is required to supplement the cost of student consumables.**

**Preschool: Ages 4-5 (HS761)**

Grade Level: 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00 (Level I)  
Prerequisite: Human Development strongly recommended

Students explore teaching and administrative careers by running a preschool for four and five year old children. Skills include, lesson planning, and presentation, one to one interaction with preschool children, and effective communication with parents of preschoolers. Preschool age students from the community will be coming in to the High School, thus providing students with a real-world experience as an educator. **A $20 class fee is required to supplement the cost of student consumables.**
Child Development Independent Study (HS765)

Grade Level: 11, 12
Length of Course: 90 days
Credits: .5
Weight: 1.03 (Level II)

Prerequisites: Preschool (Age 3), Preschool (Ages 4-5), Human Development and teacher recommendation

This course is offered to students who wish to pursue a career in preschool or early elementary education. Students will tailor their course to their interests and spend time working with preschool and/or elementary age children. Preschool age students from the community will be coming into the High School, thus providing students with a real-world experience as an educator.
2020 - 2021
ELCO HIGH SCHOOL DEPARTMENT OF MATHEMATICS
RECOMMENDED COURSE FLOW CHART

Students who aspire to take Calculus should take both CP Algebra 2 and CP Geometry during their sophomore year.

Students may take AP Statistics any time after the completion of Honors Algebra 2

Students who aspire to take Calculus their junior year should take both Honors Algebra 2 and Honors Geometry their freshman year.
The mathematics courses are designed to follow the Pennsylvania Core Standards. The main purpose of the PA Core Standards is to provide the math skills identified by the Commonwealth of Pennsylvania as being essential for a student to be successful after high school.

<table>
<thead>
<tr>
<th>Statement for Calculator Use</th>
</tr>
</thead>
<tbody>
<tr>
<td>Calculators will be utilized in every course when appropriate. The graphing calculator will be introduced, taught, and used at the appropriate time. Scientific calculators will be used extensively, building to the graphing calculator. Student calculator use will be determined by the teacher of each individual course. Every mathematics teacher is able to provide a classroom set of scientific or graphing calculators.</td>
</tr>
</tbody>
</table>

### Pre-Algebra  (HS110)

<table>
<thead>
<tr>
<th>Grade Level:  9</th>
<th>Length of Course: 180 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits:  1</td>
<td>Weight:  1.00  (Level I)</td>
</tr>
</tbody>
</table>

This course is designed for those students who need a review of the basic skills of mathematics before enrolling in Algebra I. The major emphasis of this course will be on the solution of equations and inequalities in the real number system. Probability, statistics, ratios, proportions, percents, the graphing and writing of linear equations, and systems of equations are also included in the curriculum.

### Algebra I  (HS123)

<table>
<thead>
<tr>
<th>Grade Level:  10</th>
<th>Length of Course: 180 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits:  1</td>
<td>Weight:  1.00  (Level I)</td>
</tr>
<tr>
<td>Prerequisite:</td>
<td></td>
</tr>
<tr>
<td>Pre-Algebra</td>
<td></td>
</tr>
</tbody>
</table>

This course is designed to meet the Algebra I PA Core Standards as assessed on the Algebra I Keystone Exam in an effort for all students to achieve proficiency. This course provides the foundation for the study of operations and properties of the real number system. Students will have the opportunity to learn all topics tested on the Algebra I Keystone assessment. Topics include the study of linear equations/functions, linear inequalities, absolute value equations, systems of linear equations/inequalities, properties of exponents, polynomials and factoring, quadratic equations/functions, and simple rational expressions, as well as topics from statistics and probability. Students will be expected to think critically while solving challenging problems and studying mathematical concepts.
### Strategies of Algebra (HS101)

<table>
<thead>
<tr>
<th>Grade Level: 10, 11</th>
<th>Length of Course: 180 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: 1</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
<tr>
<td>Prerequisite: CP Algebra I AND scoring Basic or Below Basic on the Algebra I Keystone Exam</td>
<td></td>
</tr>
</tbody>
</table>

This course is designed only for students who did not score Advanced or Proficient on the Algebra I Keystone Exam. Instruction will be geared to meet the individual needs of the student while addressing the Algebra I PA Core Standards as assessed on the Algebra I Keystone Exam in an effort for all students to achieve proficiency.

### Geometry (HS143)

<table>
<thead>
<tr>
<th>Grade Level: 11, 12</th>
<th>Length of Course: 180 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: 1</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
<tr>
<td>Prerequisite: Algebra I</td>
<td></td>
</tr>
</tbody>
</table>

This course is designed to fulfill the Geometry PA Core Standards as determined by the PA Department of Education. This course studies two and three-dimensional geometry while integrating previously learned algebraic topics. Course topics will include lines, angles, triangles, polygons, circles, area of two-dimensional figures, surface area and volume of three-dimensional figures, and right triangle trigonometry.

### Intermediate Algebra (HS133)

<table>
<thead>
<tr>
<th>Grade Level: 11, 12</th>
<th>Length of Course: 180 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: 1</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
<tr>
<td>Prerequisite: Algebra I and Geometry</td>
<td></td>
</tr>
</tbody>
</table>

This course is designed for students who need reinforcement of concepts taught in Algebra I while also providing them with an overview of concepts that would be covered in an Algebra II course. Graphing linear equations & inequalities, solving linear systems, factoring polynomials, simplifying rational expressions, and solving quadratic equations and inequalities will be emphasized. This course is recommended for students whose post-secondary plans require mathematical experience beyond Algebra I and Geometry.
Algebra I – College Prep (HS122)
Grade Level: 9, 10  
Length of Course: 180 days
Credits: 1  
Weight: 1.03 (Level II)
Prerequisite: Pre-Algebra (HS110) (85% or higher); Middle School Intro to Algebra (75% or higher); Middle School Math 8 (80% or higher) OR teacher recommendation

This course is designed for college-bound students in an effort to meet the Algebra I PA Core Standards as assessed on the Algebra I Keystone Exam. Students who successfully complete the course will be prepared to achieve proficiency on the Algebra I Keystone Exam and to continue their study in CP Algebra II. This course provides the foundation for the study of operations and properties of the real number system. Topics include the study of linear equations/functions, linear inequalities, absolute value equations, systems of equations/inequalities, properties of exponents, factoring, and topics from probability and statistics. Students will be expected to think critically while solving challenging problems and studying mathematical concepts.

Algebra II – College Prep (HS132)
Grade Level: 9, 10, 11  
Length of Course: 180 days
Credits: 1  
Weight: 1.03 (Level II)
Prerequisite: CP Algebra I (80% or higher) or Algebra I (85% or higher) OR scoring Advanced or Proficient on the Algebra I Keystone Exam OR Honors Algebra I in 8th grade and Basic or Below Basic on the Algebra I Keystone Exam OR teacher recommendation

This is a course for college-bound students designed to meet the Algebra II PA Core Standards and prepare students for CP Precalculus. This course reviews Algebra I concepts with more emphasis on fractional expressions and word problems. Students will learn to solve polynomial equations, simplify radicals, solve radical equations, graph quadratics, work with irrational expressions, and will include a study of functions and a look at the complex numbers.

Geometry – College Prep (HS142)
Grade Level: 11, 12  
Length of Course: 180 days
Credits: 1  
Weight: 1.03 (Level II)
Prerequisite: CP Algebra II (75% or higher) or Strategies of Algebra (80% or higher) OR teacher recommendation

This course is designed to meet the Geometry PA Core Standards. This algebra-based course includes the study of two and three-dimensional geometry. Topics include properties of lines, angles, triangles, polygons, circles, area of two-dimensional figures, and the area and volume of three-dimensional figures. The course includes a study of proof writing and other mathematical arguments.
Precalculus – College Prep (HS152)

Grade Level: 11, 12
Credits: 1
Length of Course: 180 days
Weight: 1.03 (Level II)
Prerequisite: CP Algebra II (80% or higher) AND CP Geometry or teacher recommendation

This is an alternate course for students in the honors math track or for CP Algebra II students who wish to pursue a math or science major in college, but need a thorough explanation and additional practice with precalculus topics. The topics include various forms of algebraic functions and trigonometry.

Probability & Statistics – College Prep (HS172)

Grade Level: 11, 12
Credits: 1
Length of Course: 180 days
Weight: 1.03 (Level II)
Prerequisite: Successful completion of CP Algebra II and CP Geometry

This course is designed to give college bound students a firm background in probability and statistics. The topics include the various types of graphs of data, measures of central tendency, linear regressions, correlation, probability theory, binomial probability, and normal distributions. There is a large emphasis on technology, primarily the TI-84 Plus Silver Edition graphing calculator, which is provided for each student.
**Honors Courses are AP Calculus-driven.** This means that students electing this level will be prepared for the AP Calculus AB test. These courses are designed down from the AP test. Learning the entire curriculum is rigorously emphasized.

---

**Geometry – Honors (HS141)**

Grade Level: 9, 10

Credits: 1

Length of Course: 180 days

Weight: 1.06 (Level III)

Prerequisite: Scoring Advanced or Proficient on the Algebra I Keystone Exam, Honors Algebra I (80% or higher), CP Algebra I (90% or higher & teacher recommendation) or teacher recommendation

This is a course for college-bound students to meet the Geometry PA Core Standards. This course is designed down from the AP Calculus exam and learning the content of the entire curriculum is rigorously emphasized. This course studies both plane and solid geometric figures along with their constructions and relationships to algebra. The course includes a formal study of proof writing and other mathematical arguments. A strong background in algebra is required.

---

**Algebra II – Honors (HS131)**

Grade Level: 10

Credits: 1

Length of Course: 180 days

Weight: 1.06 (Level III)

Prerequisite: Honors Geometry (80% or higher) or teacher recommendation

This is a course for college-bound students to meet the Algebra II PA Core Standards and prepare students for Honors Precalculus. This course is designed down from the AP Calculus exam and learning the content of the entire curriculum is rigorously emphasized. This course begins with a rapidly paced review of Algebra I concepts and then involves solving polynomial equations, simplifying radicals, solving radical equations, graphing quadratics, a thorough study of functions, working with irrational expressions, and a look at the complex numbers.

---

**Precalculus – Honors (HS151)**

Grade Level: 11

Credits: 1

Length of Course: 180 days

Weight: 1.06 (Level III)

Prerequisite: Honors Algebra II (80% or higher) and CP or Honors Geometry or teacher recommendation

This course is geared to prepare students for a college-level calculus course. The course begins with an in-depth look at algebraic and transcendental functions. It then deals with various concepts involved in any study of trigonometry, including the three types of trigonometry. This course is designed down from the AP Calculus exam and learning the content of the entire curriculum is rigorously emphasized.
Calculus – Honors  (HS161)
Grade Level: 12  
Length of Course: 180 days  
Credits: 1  
Weight: 1.06 (Level III)  
Prerequisite: Precalculus - Honors (75% or higher) or Precalculus – CP (85% or higher) or teacher recommendation

This course is applicable for students who plan to take calculus in college. It is designed as an introductory calculus course dealing with the study of limits, differentiation of elementary functions and an introduction of the Fundamental Theorem of Calculus.

AP Calculus  (HS160)
Grade Level: 12  
Length of Course: 180 days  
Credits: 1  
Weight: 1.12 (Level IV)  
Prerequisite: Precalculus - Honors (80% or higher) or teacher recommendation

This is the Advanced Placement Calculus AB course, and it is geared toward students who plan to major in math or science in college. There will be many application problems from physics, and it is recommended that students also take Honors Physics. The curriculum consists of the study of limits and differentiation and integration of elementary functions. Upon completion of the course, the students will be prepared to take the AP Calculus AB exam offered through the College Board.

AP Statistics  (HS170)
Grade Level: 10, 11, 12  
Length of Course: 180 days  
Credits: 1  
Weight: 1.12 (Level IV)  
Prerequisite: Algebra II – Honors (80% or higher) or teacher recommendation; Students who desire to take this course as a 10th-grade student MUST receive a teacher recommendation from their 9th-grade Math instructor.

The purpose of the AP course in statistics is to introduce students to the major concepts and tools for collecting, analyzing and drawing conclusions from data. Students are exposed to four broad conceptual themes:
- Exploring Data: Describing patterns and departures from patterns.
- Sampling and Experimentation: Planning and conducting a study.
- Anticipating Patterns: Exploring random phenomena using probability and simulation.
- Statistical Inference: Estimating population parameters and testing hypotheses.

Curriculum for this course follows the AP Statistics curriculum set by the College Board and is designed to prepare students for the AP Statistics exam.
**MUSIC**

**Band (HS650 OR HS651)**

Grade Level: 9, 10, 11, 12

Credits: .25 (with Chorus) or .5

Length of Course: 180 days

Weight: 1.00 (Level I)

Open to all students who wish to participate in a challenging instrumental music setting. The band performs at numerous school and community events throughout the school year. All members are required to perform at football games, parades and concerts. Extensions of band include the jazz band, pit orchestra, and drumline. Students must be enrolled in band in order to be eligible for any of the other ensembles. This course will be offered during flex and does not conflict with students’ course choices.

**Chorus (HS660 OR HS661)**

Grade Level: 9, 10, 11, 12

Credits: .25 (with Band) or .5

Length of Course: 180 days

Weight: 1.00 (Level I)

Membership is open to anyone interested in singing. Voice parts available are soprano, alto, tenor and bass. Advanced pianists are encouraged to accompany this ensemble. Extensions of the chorus include Concert Choir, Show Choir, and Barbershop Choir. Students must be enrolled in chorus in order to be eligible for any of the other vocal ensembles. This course will be offered during flex and does not conflict with students’ course choices.

**Advanced Music Stage Production (HS675)**

Grade Level: 10, 11, 12

Credits: .5

Prerequisite: Music Stage Production (80% or higher)

Length of Course: 90 days

Weight: 1.00 (Level I)

This course is designed to further students’ knowledge and skills in understanding, utilizing, and developing scenic designs, stage lighting, performance set-up and rigging, and sound production and set-up. Students will be instructed in lighting concepts for professional theater. Students in this class will help to supervise the construction of the fall and spring theatrical productions.

**American Musical Theater (HS670)**

Grade Level: 9, 10, 11, 12

Credits: .5

Length of Course: 90 days

Weight: 1.00 (Level I)

This course is an overview of the American Musical Theater from the early 1900's to the present. Students will be studying, researching, viewing and discussing numerous American Musicals. The class will also be exposed to staging, schools of directing styles, impromptu acting and writing. The final project will be writing, producing and performing a short one-act musical as a class.
**AP Music Theory (HS676)**

Grade Level: 10, 11, 12
Credits: 1
Prerequisite: Successful completion of Music Theory.

Length of Course: 180 days
Weight: 1.12 (Level IV)

This course develops a student's ability to recognize, understand, and describe the basic materials and processes of music that are heard or presented in a score. The course strives to develop a student's aural, sight-singing, written, compositional, and analytical skills through listening, performance, written, creative, and analytical exercises. This course will prepare students to take the AP Music Theory Exam, which tests students' understanding of musical structure and compositional procedures through recorded and notated examples.

**Concert Choir (HS662)**

Grade Level: 9, 10, 11, 12
Credits: .5
Prerequisite: Audition

Length of Course: 90 days
Weight: 1.03 (Level II)

This choral class consists of performing more difficult choral literature and concentrates on improving individual musicianship for each member. Students will learn sight-singing, music theory, and work on solo pieces. Students will sing in smaller group settings as well. This class is available to students in grades 9-12 who are scheduled for chorus all year. Students who take this class must be scheduled for Chorus all year.

**History of Pop Music (HS678)**

Grade Level: 9, 10, 11, 12
Credits: .5

Length of Course: 90 days
Weight: 1.00 (Level I)

The aim of this course is to explore a number of different approaches to the relationship between music and its cultural and social contexts in modern times. Students will "sample" a broad spectrum of issues, methods, and musical forms including: Jazz & Swing Styles, Pop & Rock Styles, Dance & Electronica Styles, Entertainment & Musical Humor, Musical Theatre, Film Scoring, Commercial Music, and Contemporary Music.

**Music Stage Production (HS674)**

Grade Level: 9, 10, 11, 12
Credits: .5

Length of Course: 90 days
Weight: 1.00 (Level I)

This course is designed to provide students with the basic skills in understanding, utilizing, and developing stage work, performance set-up and rigging, as well as live sound production and set-up. Students will be instructed in stage and production safety procedures, the technological aspects of sound equipment, and stage performance design and set-up, as well as preparation for concerts and performances.
Music Theory (HS677)

Grade Level: 9, 10, 11, 12
Credits: .5
Length of Course: 90 days
Weight: 1.00 (Level I)

This course will guide students in developing their own written musical work. Students will study the techniques of music theory, through writing, analyzing and notating music. This course includes: the study of the building blocks of notated music, listening analysis of music material; careers and backgrounds of composers, writers, and performers; discussion of styles, techniques, and arrangements; music problem solving; the use of music writing and performance software. If you are looking for a course which utilizes Garageband and other forms of creating music digitally, choose music recording and production. This class serves as the pre-requisite for AP Music Theory.

Piano (HS653)

Grade Level: 9, 10, 11, 12
Credits: .5
Prerequisite: None
Length of Course: 90 days
Weight: 1.00 (Level I)

This course is designed for students who wish to develop basic piano playing skills, or expand on their existing skills. Time in class will be spent both on and off the keyboards. While playing, students will be working individually and in small groups to master the techniques of playing and to learn pieces. There will also be time spent in group instruction on musical notation and theory.

Rock Band (HS654)

Grade Level: 9, 10, 11, 12
Credits: .5
Prerequisite: None
Length of Course: 90 days
Weight: 1.00 (Level I)

Rock band is a one-semester course designed for students who want to develop music-making skills and music literacy using primarily rock and pop music. It is an introductory level course, so no previous experience is needed.

Some key takeaways from the class are that students:
- Learn new musical instruments such as guitar, electric bass, drums, and keyboards
- Explore an interest in singing with a group
- Deepen understandings of the fundamental elements of music
- Study the history and evolution of rock music
- Explore live sound reinforcement techniques
- Use popular and rock music as the springboard to group music making.
Sound Recording and Production  (HS679)
Grade Level: 9, 10, 11, 12
Credits: .5
Length of Course: 90 days
Weight: 1.00 (Level I)

This course is devoted to the intricacies of sound and music recording and production. Students will focus on proper recording equipment and techniques for producing professional quality music albums. Areas of study will include microphones, mixers, recording software, sound engineering, and sequencers. This course will also explore specific effects and plug-ins within Garageband.

Wind Ensemble  (HS652)
Grade Level: 9, 10, 11, 12
Credits: .5
Prerequisite: Concert Band member
Length of Course: 90 days
Weight: 1.03 (Level II)

Open to all instrumental students grades 9-12. This course will focus on individual musicianship for each student’s chosen instrument. Extensions of this course will include solo and group performance opportunities. Students taking this course should also be members of the High School Band. This course may be taken both fall and spring semesters.

Voice Class  (HS663)
Grade Level: 9, 10, 11, 12
Credits: .5
Prerequisite: None
Length of Course: 90 days
Weight: 1.00 (Level I)

Voice Class is an introductory course designed to teach students how to make their voice sound more powerful, how to use vocal technique to expand their range and expression, and how to become more confident in vocal performances. This course is a fantastic starting point for anyone wanting to make the most of their voice.

### Biology – Honors (HS211)

- **Grade Level:** 9  
- **Length of Course:** 180 days  
- **Credits:** 1  
- **Weight:** 1.06 (Level III)  
- **Prerequisite:** Honors Algebra I (Grade 8) with math teacher recommendation, Proficient or Advanced score on the 8th-grade PSSA Science, and teacher recommendation

Honors Biology is designed for the college-bound student who anticipates a future in the sciences. It acquaints students with biological principles through the discovery method. Extensive lab work is involved and a dissection is included. Topics will include the scientific method, measurement, characteristics of life, basic biochemistry, the cell, cellular energy, and protein synthesis, genetics, and change through time. Students will take the Biology Keystone exam upon completion of this course.

### Biology - College Prep (HS212)

- **Grade Level:** 9  
- **Length of Course:** 180 days  
- **Credits:** 1  
- **Weight:** 1.03 (Level II)  
- **Prerequisite:** Pre-Algebra (Grade 8), teacher recommendation, and 8th-grade PSSA Science score

College Prep Biology is designed for the college-bound student. It acquaints students with biological principles through the discovery method. Extensive lab work is involved and a dissection is included. Topics will include the scientific method, measurement, characteristics of life, basic chemistry, the cell, nucleic acids and protein synthesis, genetics, and change through time. Students will take the Biology Keystone exam upon completion of this course.

<td>College Prep Chemistry I is designed for the college-bound student. This course consists of the following topics: matter, measurements, atoms, electrons, periodic table, chemical bonding, chemical formulas, chemical reactions, stoichiometry, and gas laws. Required math skills will be taught as needed. Laboratory exercises and activities will reinforce classroom learning. Students will be required to write lab reports. Calculators are required (Recommended calculator: TI-30X IIS).</td>

AP Biology (HS250)
Grade Level: 11, 12  
Length of Course: 180 days
Credits: 1  
Weight: 1.12 (Level IV)
Prerequisite: Honors Biology (80% or higher)  
Honors Chemistry I (80% or higher) and/or teacher recommendation

AP Biology is designed to be the equivalent of a college introductory biology course usually taken by Biology or related science majors, during their first year in college. The topics covered include molecules and cells, genetics and evolution, and organisms and populations with extensive laboratory activities. AP Biology strives to provide the student with the conceptual framework, factual knowledge, and analytical skills to deal critically with the rapidly changing science of biology. This course alternates with AP Environmental Science and will NOT be offered during the 2020-2021 school year. This course is currently designated as a "College in the High School" course.

AP Environmental Science (HS251)
Grade Level: 11, 12  
Length of Course: 180 days
Credits: 1  
Weight: 1.12 (Level IV)
Prerequisite: Honors Biology (70% or higher) or CP Biology (80% or higher)  
Chemistry I (80% or higher) and/or teacher recommendation

AP Environmental Science is designed to be the equivalent of a one semester, introductory college course in Environmental Science. It is intended to enable students to undertake, as first year college students, a more advanced study of topics in environmental science or to fulfill a basic requirement for a laboratory science and thus free time for taking other courses. The goal of the course is to provide students with the scientific principles, concepts and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and manmade, to evaluate the risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them. This course alternates with AP Biology WILL be offered during the 2020-2021 school year. This course is currently designated as a "College in the High School" course.

AP Physics I: Algebra-Based (HS260)
Grade Level: 11, 12  
Length of Course: 180 days
Credits: 1  
Weight: 1.12 (Level IV)
Prerequisite: Algebra II – Honors (80% or higher); Geometry – Honors (80% or higher); Physics I: Mechanics- Honors (80% or higher); and/or teacher recommendation

AP Physics I: Algebra-Based is designed to be the equivalent of a one semester, introductory college-level course in Physics. Through the course, which focused on inquiry-based investigations, students will explore principles of Newtonian mechanics; work, energy, and power; mechanical waves and sound; and introductory, simple circuits. The course is based on six big ideas, which encompass core scientific principles, theories, and processes that cut across traditional boundaries and provide a broad way of thinking about the physical world. Students will use representations and models to communicate scientific phenomena and solve scientific problems, use mathematics appropriately, and engage in scientific questioning to extend thinking or to guide investigations within the context of the course.

HAP is designed for students intending to pursue a medical, science, or health-related career in college. It will introduce the student to college-level anatomy and physiology. Extensive medical terminology is also included. Laboratory work is included and a dissection of the fetal pig is the culminating activity. Topics include an introduction to anatomy and physiology, chemical organization, cellular organization, tissues, the skeleton, muscles, and an overview of the brain.

**Chemistry II – Honors (HS231)**

<table>

Honors Chemistry II is specifically designed to prepare students for college-level chemistry courses and is recommended for students planning to pursue a career in science. The class is divided into inorganic chemistry and organic chemistry. Inorganic topics will include a review of Chemistry I, solutions, kinetics and equilibrium, acids and bases, oxidation-reduction and thermodynamics. Organic chemistry topics will give students a basic knowledge of the nomenclature of organic compounds, a foundation to draw structural formulas, and an understanding of the properties of various classes of organic compounds. Students will also have the opportunity to perform experiments using several laboratory instruments. Lab work will supplement all classroom topics. Calculators that compute logarithms and roots are required.

**Chemistry in Agriculture (HS246)**

<table>

The ELCO community has strong agricultural ties with many of our students working, living, and/or having an interest in farming/agriculture. Students need the opportunity to apply what they've learned in chemistry and biology to agriculture. Chemistry is found in topics such as aquaponics, hydroponics, aeroponics, plant structure, water, soil improvements, composting, crop rotation, and gardening. Principles used in chemistry will be directly applied to the previously named topics through direct instruction, indirect instruction, and hands-on STEM based learning. Students will work collaboratively to design, problem solve, build, and monitor a variety of year-long agricultural initiatives/projects that can be implemented at home. Taking chemistry home, understanding how to live a more sustainable life, and playing a role in reducing waste are key outcomes of the course.
Environmental Ecology  (HS242)
Grade Level: 10, 11, 12 Length of Course: 180 days
Credits: 1 Weight: 1.03 (Level II)

This course is designed to provide an overview of ecological studies for students with an interest in the environment or who are planning a career in an environmentally related field. Topics covered will include basic ecology, soils, aquatic environments, water quality, animal behavior, and migration. Laboratory activities are emphasized.

Forensic Science  (HS245)
Grade Level: 11, 12 Length of Course: 180 days
Credits: 1 Weight: 1.03 (Level II)
Prerequisite: Successful completion of Biology and Chemistry I.

This course introduces students to the field of forensic science and is designed for students to explore real world applications of chemistry, biology, and associated math skills. The general public’s interest in forensic science has increased because of TV shows, such as CSI: Crime Scene Investigation. These shows have made the area of forensic science popular, but they have also misled the public to believe unrealistic expectations of forensic evidence and analysis. This course will correct misconceptions brought on by the “CSI effect” and will explore research techniques implemented on a crime scene and in a forensics lab. The course will focus on all areas associated with crime scene investigation and will discuss how evidence is analyzed. Topics will include analyzing evidence such as blood spatter, glass, soil, drugs, DNA, hairs, fibers, paint, explosives, and fingerprints.

Physics I: Mechanics – Honors  (HS261)
Grade Level: 11, 12 Length of Course: 180 days
Credits: 1 Weight: 1.06 (Level III)
Prerequisite: Honors Algebra II and Geometry (may be concurrent)

This course is designed for the college-bound student. The course is run utilizing a college textbook. This course will have an emphasis on mechanics: multiple dimensional motion, Newton's Laws, Kepler's Laws, projectile motion and energy momentum.

Physics I: Mechanics – College Prep  (HS262)
Grade Level: 11, 12 Length of Course: 180 days
Credits: 1 Weight: 1.03 (Level II)
Prerequisite: CP Algebra II and CP Geometry (may be concurrent)

This course is designed for the student who plans to further his/her education but who does not plan to major in mathematics, engineering, or physical sciences. This course will emphasize motion, Newton's Laws, Laws of Gravitation, and momentum.
**Physics II: Electricity & Magnetism – Honors (HS267)**

Grade Level: 12  
Credits: 1  
Length of Course: 180 days  
Weight: 1.06 (Level III)  
Prerequisite: Honors Algebra II and Geometry (may be concurrent)

This course is designed for the college-bound student. The course will cover optics, waves, electricity, and magnetism. This course can be taken either after completing Honors Physics - Mechanics (recommended) or concurrently with Honors Physics - Mechanics.

---

**Physics II: Electricity & Magnetism – College Prep (HS268)**

Grade Level: 12  
Credits: 1  
Length of Course: 180 days  
Weight: 1.03 (Level II)  
Prerequisite: CP Algebra II and CP Geometry (may be concurrent)

This course is designed for the college-bound student who plans to further his/her education but who does not plan to major in mathematics, engineering, or physical sciences. The course will cover optics, waves, electricity, and magnetism. This course can be taken either after taking CP Physics - Mechanics (recommended) or concurrently with CP Physics – Mechanics.

---

**Principles of Physical Science (HS244)**

Grade Level: 11, 12  
Credits: 1  
Length of Course: 180 days  
Weight: 1.00 (Level I)

Utilizing the principles of physical sciences as an overarching theme, students will develop the reasoning, mathematical, and problem solving skills necessary to provide a broad-based knowledge of basic chemistry and physics. The class will utilize hands-on activities to strengthen students' analytical abilities.
SOCIAL STUDIES

**U.S. History III** is a survey course of the period from the turn of the 20th century to modern times. Emphasis is placed upon the expansion of the nation’s boundaries, cultural conflict and struggle, industrialization, development of technology, immigrant contributions, reforming American society, participation in global conflicts, and America’s rise as a global power. Success in this course is not purely based on memorization, rather students will need to develop an appreciation for our history and utilize the material studied to develop a personal perspective on history.

**U.S. History III - Honors (HS311)**

<table>
<thead>
<tr>

Students will be expected to complete essay tests, read supplemental materials, and complete extensive writing assignments and research projects, as well as the aforementioned requirements. The course is reserved for high achieving and gifted students who plan to follow an honors track with Advanced Placement course offerings within the Social Studies department. Self-motivation and a strong work ethic are needed to be successful in this course.

**U.S. History III - College Prep (HS312)**

<table>
<thead>
<tr>
<th>Grade Level: 9</th>
<th>Credits: 1</th>
<th>Length of Course: 180 days</th>
<th>Weight: 1.03 (Level II)</th>
</tr>
</thead>
</table>

This course is open to college preparatory students. Students will be expected to complete well-developed formal essay responses and written reports. They will also be expected to utilize supplemental readings and cross-curricular knowledge. Historical analysis responses will be required throughout the course in addition to the aforementioned requirements.
**U.S. History III - Applied (HS313)**

Grade Level: 9  
Length of Course: 180 days  
Credit: 1  
Weight: 1.00 (Level I)

Students are expected to consistently complete class work, homework, activities, supplemental readings, well-developed written responses, and projects.

**United States Government** is a survey of the key concepts, governmental institutions and current issues in American politics. Topics covered in the class include the foundations of the United States government, branches of government, the operation of political parties and interest groups, domestic and foreign policy, electoral politics and state and local government. Modern issues and current events will also be addressed in this course as a means of applying the material to the lives of students.

**U.S. Government – Honors (HS324)**

Grade Level: 10  
Length of Course: 180 days  
Credit: 1  
Weight: 1.06 (Level III)  
Prerequisite: U.S. History III (80% or higher) or teacher recommendation

Students will be expected to complete essay tests, read supplemental materials, and complete extensive writing assignments and research projects, as well as the aforementioned requirements. The course is reserved for high achieving and gifted students who plan to follow an honors track with the possibility of moving to Advanced Placement courses.

**U.S. Government - College Prep (HS325)**

Grade Level: 10  
Length of Course: 180 days  
Credit: 1  
Weight: 1.03 (Level II)

This course is open to college preparatory students. Students will be expected to complete well-developed formal essay responses and written reports. They will also be expected to utilize supplemental readings and cross-curricular knowledge. Historical analysis responses will be required throughout the course in addition to the aforementioned requirements.

**U.S. Government - Applied (HS326)**

Grade Level: 10  
Length of Course: 180 days  
Credit: 1  
Weight: 1.00 (Level I)

Students are expected to consistently complete class work, homework, activities, supplemental readings, well-developed written responses, and projects.
World History is a course that includes the study of all of World History. Particular focus will be on the first civilizations, Ancient Greece and Rome, Eastern Empires, Middle Ages, through the Renaissance. Additionally, students study the origins and consequences of the Industrial Revolution, 19th century political reform in Western Europe, and imperialism in Africa, Asia, and South America. Students will explain the causes and consequences of the great military and economic events of the past century, including World War I, the Great Depression, World War II, the Cold War, and the Russian and Chinese revolutions. Finally, students will study the rise of nationalism and the continuing persistence of political, ethnic, and religious conflict in many parts of the world.

**World History - Honors (HS331)**

<table>
<thead>
<tr>
<th>Grade Level: 11</th>

</table>

Students will be expected to complete essay tests and a research project. Technology research projects are included in the students’ evaluation. This course is geared to the level of those students planning to enter a trade or technical school.
AP Human Geography (HS353)

Grade Level: 11, 12
Credits: 1
Length of Course: 180 days
Weight: 1.12 (Level IV)

AP Human Geography will follow the College Board’s curriculum and will support students in learning about how geography impacts economic, social, political, and environmental issues. By exploring human influences, one will be able to understand, make predictions, and propose solutions to current issues facing the world around us. AP Human Geography is equivalent to an introductory college-level course. Students are encouraged to take the AP exam at the end of the year. Students are expected to do pre-course work. Extensive writing and critical reading are crucial for this course.

**Please note that this course does NOT fulfill the 11th-grade Social Studies requirement of completing World History. This course WILL be offered in the 2020-2021 school year.**

AP United States Government (HS350)

Grade Level: 10, 11, 12
Credits: 1
Length of Course: 180 days
Weight: 1.12 (Level IV)
Prerequisite: Honors U.S. History III (80% or higher) and teacher recommendation

This course is designed for those students who want an Advanced Placement course of study in United States Government. This course is based on the guidelines of the College Board and the syllabus for Advanced Placement United States Government course. Students are encouraged to take the AP exam at the end of the year. Students are expected to do pre-course work. Extensive writing and critical reading are crucial for this course.

**Please note that this course does NOT fulfill the 11th-grade Social Studies requirement of completing World History. This course WILL be offered in the 2020-2021 school year.**

AP United States History (HS351)

Grade Level: 10, 11, 12
Credits: 1
Length of Course: 180 days
Weight: 1.12 (Level IV)
Prerequisite: Honors U.S. History III (80% or higher) and teacher recommendation

This course is designed for those students who want an Advanced Placement course of study in United States History. Sophomores may take this class as part of an Advanced Placement track that includes AP US Government and AP World History. This course is based on the guidelines of the College Board and the syllabus for Advanced Placement United States History course. Students are encouraged to take the AP exam at the end of the year. Students are expected to do pre-course work. Extensive writing and critical reading are crucial for this course.

**Please note that this course does NOT fulfill the Social Studies requirements of completing World History or U.S. Government. This course WILL be offered in the 2020-2021 school year.**
AP World History  (HS352)
Grade Level: 11, 12
Credits: 1
Length of Course: 180 days
Weight: 1.12  (Level IV)
Prerequisite: Honors U.S. History III (80% or higher) AND AP United States Government (75% or higher) or Honors Government (80% or higher) and teacher recommendation

This course is designed for those students who want an Advanced Placement course of study in World History. This course is based on the guidelines of the College Board and the syllabus for Advanced Placement World History course. Students are encouraged to take the AP exam at the end of the year. Students are expected to do pre-course work. Extensive writing and critical reading are crucial for this course.

** Please note that this course DOES fulfill the 11th-grade Social Studies requirement of completing World History. This course does NOT, however, fulfill the Social Studies requirement of completing U.S. Government. This course will NOT be offered in the 2020-2021 school year.

Social Studies Electives  (Do not fulfill graduation requirements for Social Studies.)

American History through Film  (HS370)
Grade Level: 11, 12
Credits: .5
Length of Course: 90 days
Weight: 1.03  (Level II)

This elective course examines Hollywood feature films and historical dramas as historical evidence. Students view movies on various topics and participate in discussions, and write essays comparing that film evidence to information in more traditional sources, such as articles, film reviews and critical commentaries. The course is based around six broad questions: Is film a legitimate historical source? To what extent is film evidence legitimate? What determines the legitimacy of film evidence? What determines the illegitimacy of film evidence? Is film evidence ever better than traditional historical sources? Can Hollywood films be used to teach history?

This course is a course of choice and does not fulfill a core credit in Social Studies for graduation.

Cultural Studies of the Latter 20th Century  (HS367)
Grade Level: 11, 12
Credits: .5
Length of Course: 90 days
Weight: 1.03  (Level II)
Prerequisite: Successful completion of U.S. History III and U.S. Government

In this course, students will examine American culture from the 1920's to the 1990's through the use of political, cultural, and historical study. Students in this elective course will learn how historical events have shaped our modern culture and way of life. The class will use historical
events as a backbone to explain changes in American values, beliefs, music, art, fashions and technology. Students will analyze the culture of each decade and make connections to the present in order to make comparisons. Students will be required to heavily rely upon research, long-term projects and planning skills for this class.

This course is a course of choice and does not fulfill a core credit in Social Studies for graduation.

**Contemporary World Issues (HS366)**

<table>
<thead>
<tr>
<th>Grade Level: 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.03 (Level II)</td>
</tr>
</tbody>
</table>

Prerequisite: Successful completion of U.S. History III and U.S. Government

Current Issues is an elective course that actively makes the students a part of the world today. Students will actively engage in current events, issues, and topics at all levels including local, state, federal and world. They will learn how to interpret sources, judge validity of sources, consider multiple viewpoints of issues and make an educated personal stance. The instructors will push students to go beyond just summarizing “the news” and force them to consider the impacts of events, how the past has shaped events, how events affect the student and how events are often inter-related. This course will improve the citizenship skills of students, making them more aware of the world in which they live.

This course is a course of choice and does not fulfill a core credit in Social Studies for graduation.

**Economics (HS371)**

<table>
<thead>
<tr>
<th>Grade Level: 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.03 (Level II)</td>
</tr>
</tbody>
</table>

Economics is a social science concerned with the choices individuals make in life to satisfy their wants and needs. The elective course in Economics introduces students to a new way of thinking about the world. The primary units of study will include: (1) Fundamentals of Economic Decision-Making, (2) Economic Theory, (3) Money and Debt Management, (4) Business and Labor, (5) Macroeconomic Policies and Globalization, (6) Becoming Financially Secure. As a college prep level course, assignments are intended to prepare students for the level of expectations they may face in higher education. This course will include a balance of both theoretical and practical elements and will examine many economic principles that will assist students in developing the knowledge and skills required to make sound economic and financial decisions.

This course is a course of choice and does not fulfill a core credit in Social Studies for graduation.
**Holocaust and Genocide Studies (HS372)**

Grade Level: 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.03 (Level II)

This elective course will examine the meaning of genocide and the history behind the concept. Students will learn of the various examples of genocide in the 20th Century and will examine and analyze the impact of genocide on people, politics, economics, society, history, and culture. The course will focus on the Holocaust in Europe in order to develop key concepts and knowledge before moving into other examples of genocide around the world. Students will gain an understanding of the importance of Holocaust and genocide studies/education.

This course is a course of choice and does not fulfill a core credit in Social Studies for graduation.

**Military History (HS373)**

Grade Level: 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.03 (Level II)

This elective course examines critical moments of modern American military history (Civil War to present). A basic foundational look at military concepts along with present day military actions begins the course. Following this, the course flows from the American Civil War forward to the present day. Other major units are World War I, World War II, Korea, Vietnam, and the Cold War. Students gain an understanding of not only weapons, battles, leaders, and tactics, but also the way in which war changes politics, culture, and the economics of America.

This course is a course of choice and does not fulfill a core credit in Social Studies for graduation.

**Psychology (HS361)**

Grade Level: 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.03 (Level II)

This course focuses on the study of leading psychologists and their theories and how psychological theories relate to contemporary life. The formation of human personality is analyzed and examined with regard to the role of the individual in human society.

This course is a course of choice and does not fulfill a core credit in Social Studies for graduation. This course alternates with Sociology and will NOT be offered in the 2020-2021 school year.
Sociology  (HS360)
Grade Level: 11, 12
Credits: .5
Length of Course: 90 days
Weight: 1.03 (Level II)

Sociology is intended for college-bound juniors and seniors. The foundations of society, social inequality, social institutions and social change provide areas for study in the course. The course emphasizes understanding human relationships and the importance of citizens in shaping social environments.

This course is a course of choice and does not fulfill a core credit in Social Studies for graduation. This course alternates with Psychology and WILL be offered in the 2020-2021 school year.

World Cultures  (HS364)
Grade Level: 11, 12
Credits: .5
Prerequisite: Successful completion of U.S. History III and U.S. Government
Length of Course: 90 days
Weight: 1.03 (Level II)

This course will engage students in the history and cultures of the Eastern Civilizations. As the world increasingly develops as a global society it is becoming more important for students to understand non-Western civilizations. The regions of the Middle East, Russia/Former Soviet Union, India, Sub-Saharan Africa, and East Asia are playing a larger role in the world than ever before. Students who take this course will be engaged in the culture of these regions and develop an understanding of the religions, customs, environments and contributions that are impacting the world today.

This course is a course of choice and does not fulfill a core credit in Social Studies for graduation.
## TECHNOLOGY EDUCATION

### Home Repair and Construction  (HS552)

<table>
<thead>
<tr>
<th>Grade Level: 10, 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
</tbody>
</table>

This course is designed to instruct students on simple home repairs and basic construction, while also teaching them to read a drawing on planned construction. The course will concentrate on the basic layout of walls, windows, trim and stairs in residential construction and touch upon simple home repairs such as replacing worn parts on faucets, toilets, lighting fixtures etc. Students will also be instructed on the proper safety and use of power tools. *A $20 class fee is required to supplement the cost of student consumables.*

### Introduction to Technology  (HS550)

<table>
<thead>
<tr>
<th>Grade Level: 9, 10</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
</tbody>
</table>

Introduction to Technology is an activity-based course where all students build upon previous experiences to study mechanical/architectural drawing, production and power technology. Students will be required to participate in work experiences in each area, through which they will learn to design, problem solve and complete projects using various materials and processes.

<table>
<thead>
<tr>
<th>Mechanical/Architectural Drawing</th>
<th>Production Technology</th>
<th>Power Technology</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Basic Sketching/drawing</td>
<td>- Production line activity</td>
<td></td>

<td>- Wood project work</td>
<td></td>
</tr>
<tr>
<td>- Bridge building</td>
<td></td>
<td></td>
</tr>
<tr>
<td>- CO₂ car design</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

This course is designed to help students decide which area of technology education they want to pursue further. *A $20 class fee is required to supplement the cost of student consumables.*

### Mechanical and Architectural Drawing  (HS553)

<table>
<thead>
<tr>
<th>Grade Level: 9, 10, 11, 12</th>
<th>Length of Course: 90 days</th>
</tr>
</thead>
<tbody>
<tr>
<td>Credits: .5</td>
<td>Weight: 1.00 (Level I)</td>
</tr>
</tbody>
</table>

This course will concentrate on the development of skills in mechanical and architectural design. The concepts of mechanical drawing will be introduced through activities using sketching, manual drafting, and Pro Desktop 3D modeling software. Course content will include engineering geometry, multi-view drawings, pictorial presentation, and working drawings. The concepts of architectural drawing will focus on the principles associated with residential design and construction. Upon completion of this course, students will have drawn a complete set of house plans, including floor plans, foundation plan, elevations, schedules, and plot plan. The use of both board drafting and CAD program Chief Architect will be used utilized throughout the course. Hands-on activities include bridge building, architecture model building, mouse trap cars, and design-oriented problem solving activities.
**Metal Manufacturing I (HS554)**

Grade Level: 9, 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00 (Level I)

Students will design and engineer a simple product, which will be produced in a metal manufacturing environment. Items will be marketed and sold with a simulated business venture, including a cost analysis. Students will also have the opportunity to design and complete individual projects. Students will be challenged with problem solving activities, which will include hands-on metal manufacturing processes including: CNC Plasma Cam design, welding, oxy acetylene torch cutting, lathe/mill machining, forging and casting. Students will be guided through SAFE machine operation and are required to demonstrate all safe operating procedures. *A $20 class fee is required to supplement the cost of student consumables.*

**Metal Manufacturing II (HS555)**

Grade Level: 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00 (Level I)

Prerequisite: Metal Manufacturing I or Power Technology II

This course is designed to expand upon the knowledge learned in metal manufacturing I. Design and fabricate a complex product, which will be produced in a metal manufacturing environment. Items will be marketed and sold with a simulated business venture, including a cost analysis. Students will also have the opportunity to design and complete individual projects. Students will be challenged with problem solving activities, which will include hands-on metal manufacturing processes including: CNC Plasma Cam design, welding, oxy acetylene torch cutting, lathe/mill machining, forging and casting. Students will be guided through SAFE machine operation and are required to demonstrate all safe operating procedures. *A $20 class fee is required to supplement the cost of student consumables.*

**Power Technology I (HS557)**

Grade Level: 9, 10, 11, 12  
Length of Course: 90 days  
Credits: .5  
Weight: 1.00 (Level I)

This course is designed to provide students with skills in power technology. Students will cover technical aspects in the major areas of mechanical, electrical, and fluid power. Students will be challenged with problem solving design activities, which will include hands-on fabrication of projects applying one or more areas of power technology.

<table>

This course is designed to expand upon the knowledge learned in Power Technology I. Students will review and focus on advanced areas of mechanical, electrical, and fluid power. Students will be challenged with more advanced problem solving activities, which will include hands-on fabrication of projects applying one or more areas of power technology. Students will be guided through SAFE machine operation and are required to demonstrate all safe operating procedures. *A $20 class fee is required to supplement the cost of student consumables.*

<table>

This course is designed to allow students to work in a simulated production facility. Students will work in a woodworking environment to design products, machine fixtures, shop layout and other aspects of production technology. Students will be guided through SAFE machine operation and are required to pass safety exams. The course will also involve students in a guided production run that builds upon their student-designed production plans. Individual project work will be incorporated throughout the course. *A $20 class fee is required to supplement the cost of student consumables.*

<table>

</tbody>
</table>

This course is designed to reinforce what is taught and learned in Production Technology I. Students will be guided through SAFE machine operation and are required to pass safety exams. This production class will form a business-like atmosphere to research, design, produce, package, and market a product.

- Product research and design, marketing
- Machine safety
- Facility, machine fixture, and package design
- Career research
- Final production of product
- Individual project work

The course will include a section on job opportunities and is intended to reflect the growing, expanding interest in production technology. *A $20 class fee is required to supplement the cost of student consumables.*
**Visual Communications (HS561)**

Grade Level: 9, 10, 11, 12

Length of Course: 90 days

Credits: .5

Weight: 1.00 (Level I)

This activity-based course gives the student hands-on experience in the areas of Graphic Art and Photography including:

<table>
<thead>
<tr>
<th>Desktop Publishing</th>
<th>Graphic Design Process</th>
</tr>
</thead>
<tbody>
<tr>
<td>Microsoft Office Suite</td>
<td>Problem Solving/Design Loop</td>

</tbody>
</table>

Students will use various one or more of the listed areas to create their design work in completing projects. Students will be required to complete a portfolio of works. Students will be guided through SAFE machine operation and are required to demonstrate all safe operating procedures. *A $20 class fee is required to supplement the cost of student consumables.*

---

**Technology Education Independent Study (HS590)**

Grade Level: 11, 12

Length of Course: 90 days

Credits: .5

Weight: 1.03 (Level II)

Prerequisite: Instructor’s approval

This independent study is for a student whoexcelled in any Technology Education I & II classes. The student will form a contract with the instructor and will need to meet the guidelines of the contract for course credit. Students will be guided through SAFE machine operation and are required to demonstrate all safe operating procedures. *A $20 class fee is required to supplement the cost of student consumables.*
## Physical Education – Grade 9  (HS801)

*Completion of 9th-grade Physical Education is required for graduation.*

This course MUST be successfully completed before a student can take any other elective physical education course and must be taken during the freshman year. The course emphasizes physical fitness and modified small-sided team games. This course is designed to help students consider opportunities to participate in interscholastic activities within the community, as well as, develop the student’s physical fitness. *This course is required for all ninth-graders and alternates every other day with Freshmen Seminar for one semester.*

## Health  (HS810)

</table>

*Completion of Health is required for graduation.*

An examination of mental, emotional, physiological and social health issues of young adults occurs in this course. Emphasis on healthful decision-making, long- and short-term goal setting, and looking into the future of one’s quality of life will be discussed, debated and researched. Students will be engaged in learning aspects of human anatomy and physiology related to problems associated with disease prevention and how to determine and access good healthful information based on reliable media and other associated sources of information.

## Driver Education and Safety  (HS811)

<table>
<thead>
<tr>

<td>1.00 (Level I)</td>
</tr>
</tbody>
</table>

*Completion of Driver Education and Safety is required for graduation.*

The Safety and Driver Education class prepares students to become responsible drivers. Classroom work involves areas such as drivers’ attitude and responsibility. A comprehensive study of the Pennsylvania Driver’s Manual will be an integral part of the course.
Physical Education Options for Grades 10, 11, & 12

*Students must successfully complete two of the following course options in order to fulfill graduation requirements.*

<table>
<thead>
<tr>
<th>Adventure Activity (HS820)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grade Level: 10, 11, 12</td>
</tr>
<tr>
<td>Credits: .5</td>
</tr>
<tr>
<td>Prerequisites: A minimum grade of 80% or higher in the most recent Physical Education class and teacher recommendation</td>
</tr>
</tbody>
</table>

This co-educational course is designed for students in grades 10-12 interested in Adventure and Lifetime activities. Course activities include orienteering, team building, trust activities, walking, frisbee golf, and shuffleboard. Students will participate in intense activities to produce strength gains and improve their overall health and well-being.

<table>
<thead>
<tr>
<th>Creative Movement (HS821)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grade Level: 10, 11, 12</td>
</tr>
<tr>
<td>Credits: .5</td>
</tr>
</tbody>
</table>

This coeducational course is designed for students to experience alternative forms of fitness activities. Course activities include fitness training, pilates, kick boxing, step aerobics, “core” exercises, yoga, circuit training and dance choreography experiences.

<table>
<thead>
<tr>
<th>Creative Movement II (HS825)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grade Level: 11, 12</td>
</tr>
<tr>
<td>Credits: .5</td>
</tr>
<tr>
<td>Prerequisite: Successful completion of Creative Movement I</td>
</tr>
</tbody>
</table>

This coeducational course is designed for students to continue their experience of alternative forms of fitness activities through interpretive dance. Course activities include historical dance forms, ethnic dance forms, interpretive dance forms plus a more in-depth dance choreography experience.

<table>
<thead>
<tr>
<th>Net Results - Racquet Attack (HS822)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Grade Level: 10, 11, 12</td>
</tr>
<tr>
<td>Credits: .5</td>
</tr>
</tbody>
</table>

This coeducational course is designed for students to experience a variety of lifetime sports. The class will enable students to identify activities that can be pursued later in life as a means of maintaining or increasing physical fitness. Portions of the course include fitness training and various activities such as tennis, softball, ultimate frisbee, pickle ball, ping pong, volleyball, team handball, and badminton.

91
**Optimal Performance  (HS826)**

Grade Level:  11, 12  
Length of Course: 90 days  
Credits:  .5  
Weight: 1.00  (Level I)  
Prerequisite: A minimum grade of 90% or higher in Strength Training or instructor approval

This course is designed for the student who enjoyed and excelled in Strength Training. The course will review and build on the principles taught in Strength Training and will guide students in more intensive training than Strength Training. Students will take part in Olympic lifting, Endurance Training, SAQ (Speed, Agility, and Quickness) Training, and Metabolic Conditioning. This course is perfect for any athlete looking to improve sport performance or any students interested in improving their strength and cardiovascular endurance.

**PIAA Sports Officiating  (HS827)**

Grade Level:  11, 12  
Length of Course: 90 days  
Credits:  .5  
Weight: 1.00  (Level I)  
Prerequisite: An 80% or higher in all prior required PE courses.

The PIAA Sports Officiating course is for those junior or senior students who are interested in learning the rules of various PIAA sports. Students who complete the course will have the option of becoming certified as a PIAA official in one or more of the studied activities. This course will also cover the basic requirements, knowledge, skills and mechanics necessary to be an official for each sport studied. Sports that will be covered include basketball, soccer, field hockey, softball, and baseball. This course provides students with an outstanding way to get involved with and give back to the community as a youth sports official.

**Strength Training  (HS823)**

Grade Level:  10, 11, 12  
Length of Course: 90 days  
Credits:  .5  
Weight: 1.00  (Level I)  
Prerequisite: A minimum grade of 90% or higher in the most recent Physical Education class or recommendation of instructor

This coeducational course is designed for students interested in Strength Training and Conditioning. This course focuses solely on Strength Training and Conditioning and does not include games or recreational activities. Students will participate in an intense strength and aerobic training program designed to produce strength gains and improve their overall health and well-being.

**Team Aerobic Games (TAG)  (HS824)**

Grade Level:  10, 11, 12  
Length of Course: 90 days  
Credits:  .5  
Weight: 1.00  (Level I)

This course is designed for students to experience an intense game environment. Course activities include fitness training, football, soccer, softball, floor hockey, basketball, stx ball, volleyball, handball, gatorball and speedball. This course is for the student seeking rigorous activities in a highly competitive environment.
WORLD LANGUAGES

Spanish I  (HS401)
Grade Level: 9, 10, 11, 12  
Credits: 1  
Length of Course: 180 days  
Weight: 1.03  (Level II)
Prerequisite: Concurrent enrollment in Honors or CP Literature, Analysis, and Composition and a 70% or higher in the previous year’s English Language Arts course is recommended.

This course is an introductory course that emphasizes the three modes of communication within the target language: interpersonal, interpretive, and presentational. The course begins the study of basic and fundamental grammar skills including present tense verb conjugation and noun-adjective agreement along with the mastery of basic vocabulary. Knowledge of the Spanish language and cultural awareness are valuable assets in our global community.

Spanish II  (HS402)
Grade Level: 9, 10, 11, 12  
Credits: 1  
Length of Course: 180 days  
Weight: 1.03  (Level II)
Prerequisite: Spanish I (70% or higher)

This course maintains and increases proficiency with language control, vocabulary, and communication strategies within interpersonal, interpretive, and presentational modes of communication. Narration in both present and past tense is emphasized. This information is covered within the context of the contemporary Spanish-speaking world and its culture.

Spanish III  (HS403)
Grade Level: 10, 11, 12  
Credits: 1  
Length of Course: 180 days  
Weight: 1.06  (Level III)
Prerequisite: Spanish II (75% or higher) or teacher recommendation

This honors-level course continues building cultural awareness, language control, vocabulary and communication strategies across the three modes of language learning: interpersonal, interpretive, and presentational. Work on reading skills is intensified using works by noted Spanish authors. Advanced grammar skills such as the subjunctive mood are introduced and the students become acquainted with information on situations in everyday life.
Spanish IV  (HS404)
Grade Level:  11, 12
Credits:  1
Prerequisite:  Spanish III (75% or higher) or teacher recommendation

This honors-level course continues the development of language acquisition across the three modes of communication in the target language. Works of noted Spanish and Latin American artists and authors are included. The use of Spanish expressions and idioms, which are a part of everyday life, are included. Further development of the mastery of the uses of the indicative mood and the subjunctive mood is an integral part of this course.

AP Spanish Literature and Culture  (HS405)
Grade Level:  12
Credits:  1
Prerequisite:  Spanish III or IV (80% or higher) and teacher recommendation

This Advanced Placement course is conducted in Spanish and culminates with the AP Spanish Literature and Culture exam, which students complete in May. This course introduces students to the formal study of a representative body of texts from the Spanish-speaking world, spanning history from the Middle Ages to the present day. All works on the official AP Spanish Literature reading list will be read, discussed and analyzed in the target language. In addition to a deeper understanding of the Spanish language and culture, this course encourages analytical thinking, cross-cultural understanding, and cross-curricular connections: particularly reinforcing the skills and comprehension of English literature and World History coursework.
French I  (HS411)

Grade Level: 9, 10, 11, 12
Credits: 1
Length of Course: 180 days
Weight: 1.03  (Level II)
Prerequisite: Concurrent enrollment in Honors or CP Literature, Analysis, and Composition and a 70% or higher in the previous year’s English Language Arts course is recommended.

In this course, students will first begin to develop aural and oral skills. As the course progresses, students will be able to read and write within the target language using familiar words, commands, phrases, short sentences, and basic questions. They will start to develop cultural awareness by increasing their understanding of the traditional and geographical aspects of French speaking countries.

French II  (HS412)

Grade Level: 9, 10, 11, 12
Credits: 1
Length of Course: 180 days
Weight: 1.03  (Level II)
Prerequisite: French I (70% or higher)

French II continues the development of conversational and grammatical skills focusing on the 3 modes of communication by integrating listening, speaking, reading and writing activities. Several new verb tenses will be presented as well as useful vocabulary that will allow students to communicate more effectively in a variety of situational activities. Students will also continue to broaden their understanding and appreciation of the francophone world.

French III  (HS413)

Grade Level: 10, 11, 12
Credits: 1
Length of Course: 180 days
Weight: 1.06  (Level III)
Prerequisite: French II (75% or higher) or teacher recommendation

French 3 is an honors-level course. New grammar includes expansion in present and past, as well as instruction with the imperfect and conditional tenses. Vocabulary focuses on idioms and words used in everyday situations. All three modes of communication are stressed—Interpersonal, Interpretive and Presentational—in order to increase fluency and self-confidence in the target language. Students will also read French stories as part of the curriculum.
French IV (HS418)
Grade Level: 11, 12
Credits: 1
Length of Course: 180 days
Weight: 1.06 (Level III)
Prerequisite: French III (75% or higher) or teacher recommendation

French IV is an honors levels course, which builds upon grammatical concepts from previous classes. It is designed to provide the advanced learner of French an opportunity to strengthen oral fluency; improve presentational and interpersonal writing; expand upon knowledge of other content areas finding many connections to French history, geography, art, music and literature; and analyze contemporary issues. The class will be conducted in French and students will need to express themselves in French.

AP French Language and Culture (HS417)
Grade Level: 12
Credits: 1
Length of Course: 180 days
Weight: 1.12 (Level IV)
Prerequisite: Advanced French Conversation or Advanced French Composition (80% or higher) and teacher recommendation

The AP French Language and Culture course emphasizes communication (understanding and being understood by others) by applying interpersonal, interpretive, and presentational skills in real-life situations. It engages students in an exploration of culture in both contemporary and historical contexts, while developing awareness and appreciation of cultural products, practices and perspectives. To best facilitate the study of language and culture, the course is taught almost exclusively in French with a strong focus on vocabulary usage and language control. The course culminates with the AP French Language and Culture exam in May.
MISCELLANEOUS COURSE OFFERINGS

AP Capstone – Research (HS916)

Grade Level: 11, 12
Credits: 1.00
Length of Course: 180 days
Weight: 1.12 (Level IV)

Prerequisite: A score of 3 or higher on the AP Seminar Exam

AP Capstone is an innovative college-level program based on the completion of two courses, AP Seminar and AP Research. The program immerses students in the challenging practice of the critical skills students need today. The ability to think independently, write effectively, research, collaborate, and learn across disciplines is essential for success in college and beyond. The rigorous nature of AP Capstone will challenge students to explore different points of view and make connections across disciplines, leading to a rich appreciation for the complexity of important issues.

AP Research, the second course in the AP Capstone experience, allows students to deeply explore an academic topic, problem, issues, or idea of individual interest. Students design, plan, and implement a yearlong investigation to address a research question. Through this inquiry, they further the skills they acquired in the AP Seminar course by learning research methodology, employing ethical research practices, and accessing, analyzing, and synthesizing information. Students reflect on their skill development, document their processes, and curate the artifacts of their scholarly work through a process and reflection portfolio. The course culminates in an academic paper of 4,000 to 5,000 words (accompanied by a performance, exhibit, or product where applicable) and a presentation with an oral defense.

In order to earn the AP Capstone Diploma through the College Board, students must earn scores of 3 or higher on both the AP Seminar and AP Research Exams, as well as on four additional AP Exams of their choosing.

Students who earn scores of 3 or higher on AP Seminar and AP Research but not on four additional AP Exams receive the AP Seminar and Research Certificate through the College Board.

Emergency Medical Technician (EMT) (HS915)

Grade Level: 10, 11, 12
Credits: 1
Length of Course: 180 days
Weight: 1.12 (Level IV)

Prerequisite: Students must be 16 years of age prior to the certification exam that is administered at the end of March.

The EMT course is open to students of all academic abilities who have a strong desire to achieve National and State EMT Certification. Students with this desire should have the confidence in knowing that students of all levels have successfully completed this program and have become certified Emergency Medical Technicians.

This rigorous course prepares students to become a PA Certified Emergency Medical Technician (EMT). Students who are 18 years of age at the time of the exam will also be eligible to become a Nationally Certified EMT. EMT certification is a prerequisite to the Paramedic Program. Harrisburg
Area Community College may provide students who successfully attain EMT Certification through ELCO with college credits (3 credits for the class & 3 credits for one year of EMS experience). These credits could be transferable to the school the student attends after graduation. This course will set the student apart from other applicants pursuing any career, but particularly in the arena of medicine, and will be invaluable in their preparation to enter the medical field. It will enable the student to obtain a full time, part time or volunteer job as an EMT. One of the objectives of this course is to provide the students with opportunities to explore allied health programs offered by other educational institutions. Additionally, the student will be provided with the necessary skills enabling him/her to successfully deal with emergency situations occurring at school or in their personal life as well as to perform a community service. Students will be required to attend evening classes and to purchase supplies and books needed for this course. Students who are enrolled in the EMT course may have the opportunity to:

- Respond to REAL emergency calls with a local EMS agency both during the school day and outside of school.
- Staff our in-house Emergency Response Team
- Participate in a vehicle rescue class where the student will learn to dismantle cars to gain quick access to victims including breaking glass, removing the roof and doors.
- Perform a heart and lung dissection lab
**WORK-BASED LEARNING**

**Internship (HS911)**

| Grade Level: | 12 |
| Credits: | .5 |
| Prerequisite: | Counselor approval |
| Length of Course: | 90 days |
| Weight: | 1.00 (Level I) |

Internships are career preparation work-based learning experiences focused in a particular occupational area in which the student has interest. In order to qualify for an internship experience, the student must be current with all credits needed to fulfill graduation requirements, have a strong attendance record, and no major discipline issues. No costs for students to complete an internship experience will be incurred by the District. Transportation will be the responsibility of the student. Approved students must maintain a weekly journal of their experiences that will document their activities, reflections, and progress toward meeting established learning objectives. An adult-professional at the site of the student’s internship must agree to serve as a mentor/supervisor for the student and are required to obtain school volunteer background clearances as required by the Pennsylvania Department of Education. An application will be required for admission to the Internship program. *This course will be graded on a pass/fail basis.*

**Work-Based Learning Experience (HS735)**

| Grade Level: | 12 |
| Credits: | .5 |
| Prerequisites: | Career Connections strongly recommended |
| Length of Course: | 90 days |
| Weight: | 1.00 (Level I) |

Students may apply to complete a work-based experience in the local business community. This experience will involve the student in working a minimum number of hours per week in a local business and will provide the student with an opportunity to earn elective credit. In order to qualify for a work-based learning experience, the student must be on track to complete all credits needed to fulfill graduation requirements, have no significant attendance issues, and no major disciplinary infractions. Students will be required to complete periodic assignments and maintain a journal with weekly entries. Periodic evaluations and meetings will be organized by the work-based learning coordinator to ensure student learning and progress towards the learning objectives. An adult-professional at the site of the student’s work experience must serve as the student’s mentor/supervisor and must obtain school volunteer background clearances as required by the Pennsylvania Department of Education. Students may complete two semesters of a work-based learning experience during their senior year.
CTC students excel in a “learning by doing” environment which combines academics and lab work.

CTC students earn college credits from community colleges and technical schools by successfully completing CTC courses.

CTC students receive scholarships from area businesses who recognize excellent craftsmanship and academic achievement.

CTC students continue to participate in sports and extracurricular activities at their high schools.

Cooperative Education, Clinical Experience and Job Shadowing services expand the CTC curriculum by providing students with additional skills through supervised work experience at local businesses. In addition to the cooperative education program, job placement services are available to all graduates.

The CTC provides counseling services to assist students with personal and social issues, decisions related to career choice, and decisions related to postsecondary opportunities and college credits.

The CTC provides support to students who are disabled or disadvantaged. The support is designed to help each student successfully complete the program and secure employment or postsecondary education.

The CTC takes every opportunity to recognize and reward students who strive for excellence. This recognition includes: National Technical Honor Society, scholarships, student-of-the-month and year awards, outstanding achievement, perfect attendance, honor roll, certificates and extensive recognition for student organization achievements.

Student participation in program related organizations is strongly encouraged. They provide each student with opportunities to develop leadership skills, excel in technical skills, receive recognition for state and national competitions, and travel throughout the state and nation.

The organizations include:
- LCBA – Lebanon County Builders Association – Student Chapter
- HOSA – Health Occupations Students of America
- SkillsUSA – Vocational Industrial Clubs of America
Fourteen CTC programs are offered for a half-day for two years. These programs are open to students beginning in the junior year.

**Auto Body Technology**

- Auto Body Technology
- Carpentry/Residential Construction
- Automotive Technology
- Diesel Truck Technology
- Electrical Technology
- Electromechanical Technology
- Industrial Machine Technology
- Law Enforcement and Security
- Masonry
- Medical Assistant
- Network Technology
- Plumbing/Heating/Air Conditioning
- Welding Technology

### AUTO BODY TECHNOLOGY

(HALF-DAY, 8:05 A.M. – 10:40 A.M. – YEAR ONE) -------------------------(36 WEEKS, 3 CREDITS)

(HALF-DAY, 11:35 A.M. – 2:10 P.M. – YEAR TWO) -------------------------(36 WEEKS, 3 CREDITS)

Auto Body Technology students repair damaged vehicles to like-new condition. Utilizing the latest technology, they rebuild damaged vehicles and learn body and frame alignment, parts repair/replacement including the latest fiberglass and plastic components, MIG welding, trim, accessories, interior components, glass replacement, and painting including basecoat/clearcoat/striping. Career opportunities range from the reconditioner to the collision repair technician and may begin in high school with a Co-Op position providing job experience and a salary. Students who successfully complete the program may receive college credits from PA College of Technology and the Automotive Training Center.

### AUTOMOTIVE TECHNOLOGY

(HALF-DAY, 8:05 A.M. – 10:40 A.M. – YEAR ONE) -------------------------(36 WEEKS, 3 CREDITS)

(HALF-DAY, 11:35 A.M. – 2:10 P.M. – YEAR TWO) -------------------------(36 WEEKS, 3 CREDITS)

Automotive Technology students diagnose, service, and repair late model vehicles following the Automotive Service Excellence (ASE) and Automotive Youth Educational System (AYES) national technician standards. Motivated students may obtain the PA Auto Safety Inspection
Certification, PA Emission Inspection Certification and qualify to take the ASE tests after successfully completed the program. Students who are selected into the AYES program are guaranteed employment with a local auto dealership and may opt to complete two additional years of college. Utilizing state-of-the-art repair equipment students learn brake systems, suspension and steering, engine performance, automotive electronics, and HVAC. Technical career opportunities range from maintenance mechanic to automotive technician and may begin in high school with a Co-Op or an AYES internship providing job experience and a salary. Students who successfully complete the program may receive 16 college credits from HACC. In addition, students can also earn credits from University of Northwestern Ohio, Automotive Training Center, and Northampton Community College.

**Carpentry/Residential Construction**

**(HALF-DAY, 8:05 A.M. – 10:40 A.M. – YEAR ONE) ----------------------- (36 WEEKS, 3 CREDITS)**

**(HALF-DAY, 11:35 A.M. – 2:10 P.M. – YEAR TWO) ----------------------- (36 WEEKS, 3 CREDITS)**

Carpentry students work on construction projects within the school and community. They learn skills including: transit and blueprint reading, selection of building materials and estimating, framing (floors, stairs, walls, and roofs), selection and installation of windows and doors, roofing, interior and exterior finishing, concrete finishing, and foundations. Career opportunities range from a siding installer to a finish carpenter and may begin in high school with a Co-Op position providing job experience and a salary. The 500 employers in the Lebanon County Builders Association sponsor this program, provide student scholarships, and employ graduates. Students who successfully complete the program may receive college credits from HACC, Penn College of Technology, and Thaddeus Stevens College of Technology.

**Diesel Truck Technology**

**(HALF-DAY, 8:05 A.M. – 10:40 A.M. – YEAR ONE) ----------------------- (36 WEEKS, 3 CREDITS)**

**(HALF-DAY, 11:35 A.M. – 2:10 P.M. – YEAR TWO) ----------------------- (36 WEEKS, 3 CREDITS)**

Diesel Truck Technology students restore late model over-the-road diesel truck-tractors to like new condition. Each year they refurbish or repair vehicles providing “hands-on” experience in diagnosing, servicing and repairing all major heavy truck systems. Students learn the importance of teamwork and qualify for the PA State Safety Inspection program. The major course topics include: Preventive Maintenance, Engine Systems Theory & Repair, Electrical Systems, and Brakes (air & hydraulic), Power Trains, Steering, Suspension and Drivelines. Career opportunities range from maintenance mechanic to fleet manager, and may begin in high school with a Co-Op position providing job experience and a salary. Employers in the South Central Motor Truck Association sponsor this program, provide student scholarships, and employ graduates. Students who successfully complete the program may receive college credits from the University of Northwestern Ohio (UNOH) and Automotive Training Center.
ELECTRICAL TECHNOLOGY

(HALF-DAY, 8:05 A.M. – 10:40 A.M. – YEAR ONE) -------------------------(36 WEEKS, 3 CREDITS)
(HALF-DAY, 11:35 A.M. – 2:10 P.M. – YEAR TWO)-------------------------(36 WEEKS, 3 CREDITS)

Electrical Technology students design and install the electrical systems in the school’s construction projects and work on numerous projects within the community. They learn technical skills including AC/DC fundamentals, residential, commercial and industrial wiring, AC/DC motors and generators, industrial motor control, troubleshooting and the operation of programmable logic controllers. Technical careers range from an electrician to a systems engineer and may begin in high school with a Co-Op position providing job experience and a salary. The 500 employers in the Lebanon County Builders Association sponsor this program, provide student scholarships and employ graduates. Completion of this program with the College-in-the-High School option may also provide students with eight HACC college transferrable credits.

ELECTROMECHANICAL TECHNOLOGY

(HALF-DAY, 8:05 A.M. – 10:40 A.M. – YEAR ONE) -------------------------(36 WEEKS, 3 CREDITS)
(HALF-DAY, 11:35 A.M. – 2:10 P.M. – YEAR TWO)-------------------------(36 WEEKS, 3 CREDITS)

The Electromechanical Technology program is designed to provide students with the knowledge and skills necessary to apply current methods and technology to the development, design, operation, and management of electromechanical systems. Electromechanical covers multiple disciplines including Electrical, Electronics, Fluid Power (Hydraulics and Pneumatics), Mechanical Drives, Programmable Logic Controllers (PLC’s), and Robotics. Students are trained in both the electrical and mechanical disciplines, and then exposed to a wide spectrum of instrumentation and industrial controls concepts. Students can use what they learn in Electromechanical Technology to pursue a career directly out of high school or continue their education into a degree program. The course is designed to give an introduction to engineering principles of electromechanical systems and disciplines. Some of the potential jobs include Electronics Technicians/Engineer, Electrician, Biomedical Technician/Engineer, Industrial Maintenance Technician, Mechanical Engineer, Programmer, and many more!

INDUSTRIAL MACHINE TECHNOLOGY

(HALF-DAY, 8:05 A.M. – 10:40 A.M. – YEAR ONE) -------------------------(36 WEEKS, 3 CREDITS)
(HALF-DAY, 11:35 A.M. – 2:10 P.M. – YEAR TWO)-------------------------(36 WEEKS, 3 CREDITS)

Industrial Machine Technology students manufacture precision parts in the school’s NIMS (National Institute for Metalworking Skills) authorized training center. The curriculum provides in-school instruction on topics such as: quality control, benchwork, blueprint reading, computer controlled machines (lathes/milling machines), and manual machines (saws/drills/grinders
lathes and milling machines). Career opportunities range from machine operator to tool and die maker or mechanical engineer and may begin in high school with a Co-Op position providing job experience and a salary. Students who successfully complete the program may receive seven college credits from HACC as well as credits from PA College of Technology and Thaddeus Stevens College of Technology.

**LAW ENFORCEMENT AND SECURITY**

(HALF-DAY, 8:05 A.M. – 10:40 A.M. – YEAR ONE) ----------------------------- (36 WEEKS, 3 Credits)
(HALF-DAY, 11:35 A.M. – 2:10 P.M. – YEAR TWO) ----------------------------- (36 WEEKS, 3 Credits)

Law Enforcement and Security students develop investigation skills essential to careers in Criminal Justice (Police, Courts, and Corrections) and the ever growing Private Security fields. They also have the opportunity to experience parts of the Criminal Justice System through job shadowing experiences in the real world. The program emphasizes curriculum that covers topics such as: criminal procedures, crime photography, criminal investigations, criminal law, Bill of Rights/US Constitution, vehicle law, private security, report writing, and first aid/CPR. Career opportunities range from private security to local, state, and federal officers and federal police officers. Students who successfully complete the Pennsylvania Department of Education approved program and the NOCTI exam (end of the year assessment) on the criminal justice system may receive college credits from HACC and other area colleges.

**MASONRY**

(HALF-DAY, 8:05 A.M. – 10:40 A.M. – YEAR ONE) ----------------------------- (36 WEEKS, 3 CREDITS)
(HALF-DAY, 11:35 A.M. –2:10 P.M. – YEAR TWO) ----------------------------- (36 WEEKS, 3 CREDITS)

Masonry students work on construction projects that include concrete block, brick and other similar materials. Most of the training is within the school; however, community service projects add additional learning opportunities. Students develop a highly skilled craft which includes the ability to lay a multitude of contemporary concrete building products as well as traditional brick. Additional topics include: blueprint reading, site layout, estimating, building codes, and the use of hand and power tools. Career opportunities range from a mason’s helper to blocklayer, bricklayer, estimator, or construction supervisor and may begin in high school with a Co-op position providing job experience and a salary. The 500 members in the Lebanon County Builders Association as well as the Pennsylvania Concrete Masonry Association sponsor this program, provide student scholarships and employ graduates. A student who successfully completes this program may earn three college credits from HACC.
**Medical Assistant**

(HALF-DAY, 8:05 A.M. – 10:40 A.M. – YEAR ONE) ----------------------(36 WEEKS, 3 CREDITS)
(HALF-DAY, 11:35 A.M. – 2:10 P.M. – YEAR TWO) -----------------------(36 WEEKS, 3 CREDITS)

Medical assistants are professional, multi-skilled individuals who perform administrative and clinical duties in health care settings. The program includes studies in anatomy and physiology, health insurance coding and billing, medical terminology, medical law and ethics, pharmacology, clinical and administrative skills, phlebotomy, laboratory tests, and performing and interpreting electrocardiograms.

**Network Technology**

(HALF-DAY, 8:05 A.M. – 10:40 A.M. – YEAR ONE) ----------------------(36 WEEKS, 3 Credits)
(HALF-DAY, 11:35 A.M. – 2:10 P.M. – YEAR TWO) -------------------------(36 WEEKS, 3 Credits)

Network Technology – In today’s high-tech environment, everything is networked!!! Following the CompTIA Network + Certification model, students learn the features and functions of networking components including how to install, configure and troubleshoot basic networking hardware, protocols and services. Completion of this course will prepare students for entry-level jobs in computer networking or give them a boost as they continue their education while pursuing a career as a network administration, network support technician, network administrator or network analyst. Fundamental topics to be covered include: The Foundations of Networking, the OSI/802 Model, Network Design, Network Cabling, Wireless Communication, TCP/IP, WAN Devices, Security Issues and Disaster Recovery Training. The goal is for students to seek Network+ certification after completion of the course. Students who successfully complete the program may receive up to four college credits awarded by accredited colleges or technical schools.

**Plumbing, Heating, Air Conditioning**

(HALF-DAY, 8:05 A.M. – 10:40 A.M. – YEAR ONE) -------------------------(36 WEEKS, 3 CREDITS)
(HALF-DAY, 11:35 A.M. – 2:10 P.M. – YEAR TWO) -------------------------(36 WEEKS, 3 CREDITS)

Students interested in the plumbing profession can begin their training at the CTC in the Plumbing, Heating, and Air Conditioning program which is a Pennsylvania Builders Association accredited program and tailored after the Pennsylvania College of Technology’s first year HVAC skills list. They will begin their technical training learning safe work practices, materials and tools used in the trade, and applied mathematical and scientific concepts needed to build a strong
foundation for more advanced topics. Our students “learn by doing” by working on a variety of skills trainers and equipment designed to simulate actual field installations. Students also have the opportunity to earn industry recognized certifications such as the OSHA 10 construction safety certification and the EPA Section 608 Refrigerant Transition and Handling certification. Dual enrollment opportunities with Thaddeus Stevens College of Technology are also available while enrolled in the program.

Post-secondary opportunities exist for those completing the CTC Plumbing, Heating, and Air Conditioning program such as craft apprenticeships where students “earn while they learn” graduating debt-free from industry recognized programs. Associate and Bachelor degree programs are available for those choosing careers as sales engineers, designers, and similar professions requiring advanced degrees.

**WELDING TECHNOLOGY**

(HALF-DAY, 8:05 A.M. –10:40 A.M. – YEAR ONE) -------------------------(36 WEEKS, 3 CREDITS)
(HALF-DAY, 11:35 A.M. –2:10 P.M. – YEAR TWO)-------------------------(36 WEEKS, 3 CREDITS)

Welding Technology students design, fabricate and repair metal products in the school’s shop facilities. They develop skills in testing procedures necessary to meet standards for welding certification and practice welding techniques according to the requirements of the American Welding Society. Utilizing state-of-the-art equipment, students learn shielded metal, gas metal, gas tungsten and flux core arc welding, blueprint reading, gas welding and brazing, oxy-fuel cutting, metal layout and fabrication, computerized numerical control cutting, plasma cutting of sheet and plate metals, and structural and robotic welding. Technical careers range from a metal fabricator to an underwater welder. These opportunities may begin in high school with a Co-Op position providing job experience and a salary. Students who successfully complete the program may receive six college credits from HACC or entry level welder certification. The program is nationally recognized by the AWS (American Welding Society).
Eight CTC programs are offered for a full day, 8:05 A.M. – 2:10 P.M. The programs are open to seniors.

**Commercial Art and Design**

**Culinary Arts**

**Dental Assistant**

**Health Careers Technology**

**Landscape Technology**

**Media Communications Technology**

**Pastry Arts**

**Sports Therapy Sciences**

**COMMERCIAL ART AND DESIGN**

(FULL-DAY, 8:05 A.M. – 2:10 P.M.) ----------------------------------------- (36 WEEKS, 7.5 CREDITS)

Commercial Art students work with a variety of media to create logos, brochures, posters, advertisements, greeting cards and a variety of artwork for the school and the community. They participate in Art Shows and Competitions to develop a portfolio emphasizing their creative talents and technical skills including mastery of state-of-the-art computer systems and software such as: QuarkXpress, Adobe Illustrator, and Adobe PhotoShop. This “learning while doing” strategy brings reality to the course topics, which includes: typography, media techniques, color theory, graphic design, perspective, and computer applications. This full day course promotes creativity and expression through photography, web design and animation. Career opportunities range from a production artist to a creative director. Certifications can be received from Adobe and Certified Photographic Consultants. Graduates have been successful at four-year colleges and a number of students have won scholarships at two-year art schools. Students who successfully complete this program may earn college credits from Pennsylvania College of Art and Design and The Art Institute of Pittsburgh.
Culinary Arts

(FULL-DAY, 8:05 A.M. – 2:10 P.M.) ------------------------------------------- (36 WEEKS, 7.5 CREDITS)

Culinary Arts students operate a contemporary sixty-seat full service restaurant located within the school. They plan, prepare and serve a variety of traditional, ethnic, and contemporary menus as well as cater banquets, dinner meetings, and special events. Students develop artistic skills through ice carvings and special exhibits of pastillage, tallow, and aspic work. Local, state, and national competitions enrich the curriculum which includes: appetizers, soups and sauces, vegetables and salads, meat/poultry/seafood/shellfish, desserts, garnishing, catering, service, sanitation, and management. Career opportunities range from a prep cook to an executive chef and may begin in high school with a Co-Op position providing job experience and a salary. Students who successfully complete the program may receive college credits from PA College of Technology, HACC, Johnson & Wales University, Pennsylvania Culinary Institute, and The Restaurant School. The program is nationally recognized and certified by the American Culinary Federation (ACF).

Dental Assistant

(FULL-DAY, 8:05 A.M. – 2:10 P.M.) ------------------------------------------- (36 WEEKS, 7.5 CREDITS)

The Dental Assistant program integrates lectures, demonstrations and hands-on experiences to teach students a variety of dental-related subjects. The major areas of study include anatomy and physiology, chair-side dental assisting, radiology, dental materials and microbiology/sterilization. During the program, students participate in clinical rotations in private dental offices, clinics and hospitals. Experience gained in the Dental Assistant program prepares students to take the Commonwealth of Pennsylvania State Dental Radiology Certification Test.

Health Careers Technology

(FULL-DAY, 8:05 A.M. – 2:10 P.M.) ------------------------------------------- (36 WEEKS, 7.5 CREDITS)

Health Careers Technology students who are interested in a career as a nursing assistant (NA) can complete the requirements for the exam by mid-year. Successful performance on the exam will provide the opportunity for immediate paid employment at local nursing care facilities. Students also earn certification in adult, child, and infant CPR and AED as well as first aid skills through the American Red Cross. They learn to be caregivers and prepare for the state Nurse Aide Competency Exam through a curriculum that includes topics such as: patient care skills, anatomy and physiology, medical terminology and ethics, nutrition, environmental cleanliness, record keeping, and safety.

Students interested in getting a head start on a Licensed Practical Nursing (LPN) career may qualify for advanced placement in the adult CTC LPN program. They will complete a portion of
the curriculum for Level 1 of the LPN program, which allows them to enroll in the LPN program at a reduced cost. There is also a reduction in the number of hours required to attend Level 1.

Completion of the full year Health Careers Technology program with the College-in-the-High School option also provides three HACC transferrable credits.

**LANDSCAPE TECHNOLOGY**

**(FULL-DAY, 8:05 A.M. – 2:10 P.M.)------------------------------------------ (36 WEEKS, 7.5 CREDITS)**

In Landscape Technology, you will work with the tools, equipment, and techniques needed to design, install, and maintain beautiful landscapes for private residences as well as commercial properties. You will use hand tools and power equipment including rototillers, string trimmers, leaf blowers, and commercial mowers. You will also receive training on a state-of-the-art piece of excavation equipment, a skid-steer loader. You will practice building paver patios, walkways, retaining walls, and other hardscape projects. You will participate in volunteer work experience trips all around the county. Qualified students in Landscape Technology may also be chosen for the co-op program, an opportunity to work for area landscape contractors and earn while you learn. If you enjoy working outside year round shaping and creating landscapes, then the landscape technology program will be a great fit and learning experience for you.

**MEDIA COMMUNICATIONS TECHNOLOGY**

**(FULL-DAY, 8:05 A.M. – 2:10 P.M.)------------------------------------------ (36 WEEKS, 7.5 CREDITS)**

Students enrolled in the Media Communications Technology program develop the necessary skills to be successful in the work place or post-secondary education. Using state of the art technology, students create a wide array of media projects while gaining necessary job skills.

Media Communications Technology students develop a portfolio emphasizing their creative talents and technical skills including mastery of computer systems, software, cameras, and lighting. Students create photographic and video projects for the school, civic groups, and business clients.

The program emphasizes a “hands on” curriculum which covers topics such as: digital imaging, portraiture, photo composition, lighting, animation, web page design, digital audio, video scripting/storyboarding, videography, EFP video, studio production, digital nonlinear editing, 3D animation, and multimedia CD ROM production. Career opportunities include photographers, radio announcers, and videographers.
**Pastry Arts**

(FULL-DAY, 8:05 A.M. – 2:10 P.M.) ----------------------------------------- (36 WEEKS, 7.5 CREDITS)

The Lebanon County Career & Technology Center Pastry Arts Program was the first nationally recognized and certified secondary program by the American Culinary Federation Education Foundation (ACF) in the country.

Pastry Arts students produce and market high quality baked products for a contemporary sixty-seat restaurant within the school. They also market their products through their own pastry shop as well as supplying items for school banquets, dinner meetings, community service projects, and specialty events. Students develop artistic skills through the preparation of pastries, confections, and other specialty desserts. Students will create and present a professional portfolio and restaurant programs as an end of the year assessment. Local, state and national competitions enrich the curriculum which includes: pastry bag skills, cornet skills, cake decorating and assembly, decorative pieces including a Gingerbread House and Pumpkin Carving competition, merchandising, record keeping, and sanitation. Career opportunities range from a baker’s helper to a pastry chef and may begin in high school with a Co-Op position providing job experience and a salary. Students who successfully complete the program may receive college credits from Johnson & Wales, West Moreland Community College, PA College of Technology, Harrisburg Area Community College, Art Institutes, and The Restaurant School at Walnut Hill College.

**Sports Therapy Sciences**

(FULL-DAY, 8:05 A.M. – 2:10 P.M.) ----------------------------------------- (36 WEEKS, 7.5 CREDITS)

Sports Therapy Sciences students will gain knowledge of pre-participation health and fitness assessments to design individual exercise and rehabilitation programs. Our goal is to provide an education that will encourage our students to continue their studies in fields such as athletic training, physical therapy, occupational therapy and other health and fitness related fields. Our curriculum includes: human anatomy and physiology, medical terminology, basic first aid and CPR, injury management and personal training. At the conclusion of our program, each student will be eligible to take a personal training certification examination.
HALF-DAY YEAR ONE AND FULL-DAY YEAR TWO PROGRAM

This program is offered for a half-day in year one and a full-day in year two. The program is open to students in the junior year.

Cosmetology

Cosmetology

(HALF-DAY, 8:05 A.M. – 10:40 A.M. OR 11:35 A.M. – 2:10 P.M. - YEAR ONE) ----------- (36 WEEKS, 3 CREDITS)
(FULL-DAY, 8:05 A.M. – 2:10 P.M. - YEAR TWO)-------- (36 WEEKS, 7.5 CREDITS)

Cosmetology students learn skills necessary to become a licensed professional in a salon. Major topics include hairstyling, haircutting, perming, chemical relaxing, haircoloring, manicuring, facials and makeup. Students learn the theory and procedures about these topics. When finished with the program and state mandated hours, students must take and pass a state board exam to receive a cosmetology license.
LEBANON CTC Academic English Course Description

All Lebanon CTC English courses are block scheduled (80 minute periods for 2 marking periods).

An academic college preparatory class covering the following topics:

Public Speaking Skills
- Deliver an informative speech
- Deliver a demonstration speech

Writing Skills
- Write a five-paragraph (traditional) essay
- Write a summary
- Write/create a survey

Employability Skills
- Complete a job application
- Write a résumé
- Write a letter of application
- Write a thank-you letter
- Write a letter of resignation
- Apply successful employment interview skills

Technical Writing Skills
- Write a set of instructions
- Write workplace memos
- Write a letter of request
- Write a progress report
- Create a PowerPoint presentation
  1. Survey Results
  2. Famous Entrepreneur Report
- Write a business proposal
- Write a business plan
- Write/create an outline
- Incorporate technical writing techniques
  1. Active vs. Passive Voice
  2. Parallel Structure
  3. Courtesy
  4. “You attitude”
  5. Pronoun agreement
  6. Misplaced Modifiers
  7. Wordiness and Redundancies

Technical Reading
- Read and interpret information on charts and graphs
- Identify Personal Learning Style
- Identify Myers Briggs Personality Style
- Read and analyze information related to becoming an entrepreneur and creating a business plan
Technical Mathematics
A comprehensive applied math course. Topics in basic math, pre-algebra, algebra, geometry, simple trigonometry, and basic statistics are covered.

Algebra 1 (Keystone curriculum)
College preparatory course. No prerequisite course needed. Course topics include: real number expressions, monomials and binomials, polynomials, factoring, linear equations, graphing, linear systems, functions, and data analysis.

Geometry & Intermediate Algebra
College preparatory course that has ½ year of Geometry and a ½ year of Intermediate Algebra. A pre-requisite of Algebra 1 is highly recommended. Topics include: postulates and theorems of Geometry, triangles, polygons, circles, area and volume, graphing, linear systems, rational expressions, factoring, and algebraic expressions.

Algebra 2
A college preparatory course designed for students planning post-secondary work. A pre-requisite of Algebra 1 and Geometry is recommended. Course topics include: graphing, linear systems, factoring, rational expressions, absolute value equations, intervals, slope and distance, conic sections, and functions.

CP Probability and Statistics
A college preparatory course designed for students planning post-secondary work. A pre-requisite of Algebra 2 is recommended. The course will introduce students with the major concepts and tools for collecting, analyzing, and drawing conclusions from data. Course topics include organizing data, elementary and binomial probability, hypothesis testing, correlation and linear regression, and chi-square. Application problems are emphasized from business, engineering, social and biological sciences.
**Pre-Calculus**

A college preparatory course designed for students planning post secondary work. A pre-requisite of Algebra 2 is recommended. Course includes both an advanced algebra component along with a comprehensive trigonometry component. Course topics include:

- algebraic expressions, rational expressions, absolute value equations, conic sections, graphing higher order polynomials, functions, exponential functions, trigonometric functions and their graphs, trigonometric identities and equations, and polar coordinates.

**Trigonometry and Introductory to Calculus**

A college preparatory class recommended for students who are planning post – secondary work. A pre-requisite of Pre-Calculus is highly recommended. Trigonometry component topics include: radian measure and conversion, the six trigonometric functions, graphing, phase shift, identities, solving equations, and polar coordinates. Calculus component topics include: limits, 1st and 2nd derivatives, tangent line approximation, and applications of 1st and 2nd derivatives.

**Calculus 1**

A college preparatory course recommended for students who are planning post - secondary work. (especially engineering) A pre-requisite of Pre-Calculus or Algebra 2 and Trigonometry is recommended. Course topics include: review of algebraic and trigonometric functions, limits, 1st and 2nd derivatives, differentiation, chain rule, tangent line approximations, applications of 1st and 2nd derivatives, integrals and their applications, and introduction to integrals.
